

Wins International Women's Air Race

Marion F. Jayne, a Palatine, Ill., mother of four, repeated in 1971 as the winner of the "Angel Derby" women's international air race. The 2,743 statute mile cross-country race was from Columbus, Ohio, to Managua, Nicaragua. Marion, who was sponsored by the manufacturers of Speed Queen laundry appliances for home and commercial use, has been a pilot for six years and only began her air racing hobby three years ago. She is a self-motivated woman with top-flight competitive spirit, as shown in her other high-ranking women's air race finishes.

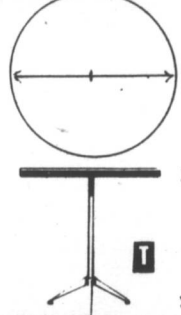

INGENUITY
IN HOME DECOR

ROUND TABLES ARE ESPECIALLY POPULAR TODAY, AND FASHION CALLS FOR THEM TO BE COVERED WITH FLOOR-LENGTH CLOTHS.

THE TRICK IS TO ORDER THE RIGHT AMOUNT OF MATERIAL AND CUT IT TO THE PROPER SHAPE. HERE, FROM THE MAKERS OF LUKIN TAPE MEASURES, IS THE EASY WAY TO DETERMINE THE EXACT AMOUNT OF CLOTH YOU NEED.

IF YOU'RE GOING TO DRAP THE CLOTH OVER A ROUND TABLE, MEASURE THE DIAMETER OF THE TABLE TOP, TAKE ONE-HALF OF THIS FIGURE, AND ADD THE HEIGHT OF THE TABLE. THE RESULT IS THE RADIUS OF THE CIRCLE YOU NEED FOR YOUR PATTERN.

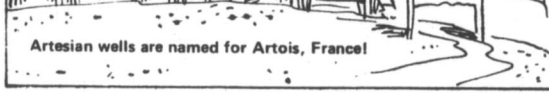

IN BORNEO, SHIELDS OF BARK COVERED WITH FISH SCALES WERE CARRIED IN BATTLE!

IN A LEGEND OF THE CHIRICAHUA APACHE INDIANS, A CLOAK OF INVISIBILITY, OBTAINED FROM A LIZARD, SHIELDS THE HERO AGAINST A MONSTER BUFFALO!

A "SHIELD" THAT IS HIGHLY VISIBLE BUT WHICH GUARDS AGAINST INVISIBLE ENEMIES IS PROVIDED BY EVERY GROCERY AND SUPERMARKET THROUGHOUT AMERICA. IT IS THE WALL OF THE METAL CAN OR GLASS JAR THAT SAFELY KEEPS INVISIBLE GERMS AND SPORES AWAY FROM THE WHOLESOME AND TASTY FOOD WITHIN!

Artesian wells are named for Artois, France!

Spotlight on HEALTH

CHILDREN'S COLDS

The three Rs—reading, (w)riting, and (a)rithmetic—should be joined by a fourth—runny nose. Few mothers would argue this suggestion.

Children have more colds than anyone, and the common cold spreads rapidly through a school community, before it goes home to infect entire families.

In a medical article on the common cold, a pediatrician wrote that the common cold is the most common type of illness in his practice, and the most frequent type of minor illness in temperate zones. "Almost everybody, including physicians, has one or more common colds per year," he added.

Colds should not be neglected, physicians warn. Serious complications may develop. In children, otitis media is the most common of these—an inflammation of the middle ear in which mucus clogging the eustachian tubes traps germs which cause infection.

HOME BUYING HINTS

Traditionally geared to the young and the old, apartments are becoming an all-ages answer to some housing needs.

Apartment construction is booming, according to the National Association of Home Builders. In 1971, 44 percent of new homes will be

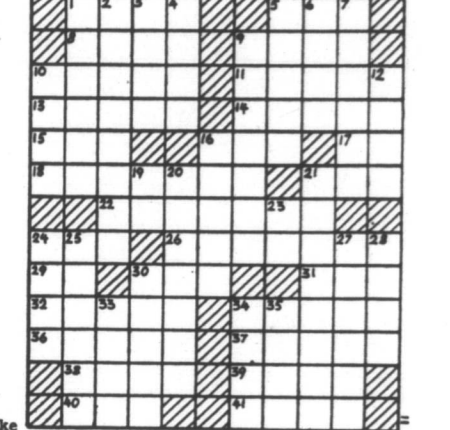

multi-family units. Included in this classification are townhouses (attached houses), garden apartments (three stories and under), and high-rise apartments (four floors or more).

Whether bought as condominiums or co-operatives, or rented, most new apartments offer the built-in promise of carefree living. And many have such extras as putting greens, swimming pools, tennis courts, central laundry facilities, community recreation centers, and even sauna baths, for the use of owners and tenants.

CROSSWORD
