"The Best Rubber on the Road" YOU MUST HAVE THE TRUTH ABOUT TIRES

We want people to know what they're buying and why it's the best tire for them. For example: not long ago a woman called us. "Truthfully, now which is the best tire on the market today?" We explained to her that Truthfully there is no best tire. Just as there is no best shade of lipstick. The most expensive tire we have just might be about the worst possible for your car's suspension. And an inexpensive tire might be, your driving needs considered, the very best tire for your type of car. We can't possibly recommend the same type of tire to every customer. When we sell a tire we make sure, if you permit us to, it's the best tire suited to your individual driving needs. This way your tires ride safer, longer, give you better performance and cost you less per mile to drive. We are other satisfied repeat business... and we offer you everyday low prices. We want you to be satisfied... so we guarantee and back up every tire we sell. Come in and give us a try. We're out to win you over with service!
