## The Make Yourself Over Clinic

BY DOLLY REED WAGEMAN, Director, The Carnation Fashion Office

Q: Dear Dolly: Business lunches with the other secretaries are ruining my figure. What to do?

A: Women who spend most of the day inside an office definitely need a change of scene at noon, but that needn't be the interior of a restaurant. Ask around among friends and co-workers, and you're sure to find someone else who'd rather go gallery-hopping, boutique-shopping or walking around in the fresh air with you.

The most refreshing thing to do is to take an exercise break—especially if yours is a sedentary job. Join a class at the nearest health club. Schedule a half-hour midday swim at the YWCA three times a week. You'll be surprised how alert this makes you feel all afternoon!

Naturally, I'm not suggesting you eliminate lunch altogether. Have a quick, delicious lunch at your desk—one which gives you plenty of protein-packed energy without excess calories, like a can of Slender diet food from Carnation. This ready-to-drink meal is just 225 calories, comes in Vanilla, Butterscotch or Chocolate. Pull up; then go out and play. Keep busy while you keep your slender measurements. P.S. If you'd rather "eat" your lunch, put a can of Slender in the freezer overnight. By lunchtime the following day, eat it with a spoon like soft ice cream.

### NEW PATTERN

Do you have a favorite pattern that you've used so much it's worn out? Or do you mix parts of different patterns to create your own fashions? If so, you can make a like-new pattern from the old by using a strong, but lightweight, woven tissue that is sheer enough to see through. Place tissue as overlay and cut, pin, mark, use tracing wheel or write information on it to make the new pattern.

Someone inquires as to the meaning of the work ethic. The work ethic is what drives men to play golf on their day off.

Peach Almond Cream is a great dessert for bridal shower, baby shower or any festive get-together. A creamy almond whip is layered over peach halves in a graham cracker crust. Velvetized evaporated milk adds special body and smooth texture to the whip. You'll like the results.

**PEACH ALMOND CREAM**  
(Makes 8 servings)

- 1 cup graham cracker crumbs
- 1/4 cup melted butter
- 8 (1 pound 13-ounce can) well drained peach halves
- 1 1/2 cups undiluted Carnation Evaporated Milk
- 2 1/2 cups (about 36) large marshmallows
- 1/4 teaspoon almond extract
- 1 tablespoon lemon juice
- Sliced almonds

Combine graham cracker crumbs and melted butter. Press into bottom of spring form pan. Place well drained peach halves on crust. Combine 1 cup evaporated milk with marshmallows in top of double boiler over hot water. Heat until marshmallows melt. Cool until slightly thickened. Stir in almond extract. Chill remaining 1/2 cup evaporated milk in refrigerator tray until soft ice crystals form around edges of tray (10 to 15 minutes). Whip until stiff (1 minute). Add lemon juice. Whip very stiff (1 minute longer). Fold whipped evaporated milk into marshmallow mixture. Pour into spring form pan. Chill until firm (2 to 3 hours). Garnish with sliced almonds.
