

Reducing Heavy Thighs

For many women who have slim hopes of ever dieting or exercising off unsightly lumps and bumps from their thighs, the problem may not be normal fat at all. They may be suffering from cellulite those unattractive areas of dimpled, rippling flesh resembling orange peels that seem to have little to do with a woman's age or weight. Although most commonly found at the top of the thighs, even on slender women, cellulite, is also found on the hips, buttocks, stomach, knees and

This condition, while well known in Europe where it's been successfully treated, if caught early enough, was prac-tically unheard of here in America where women simply had to learn to live with its humiliating ugliness. They could not comfortably wear shorts, pants, were embarrassed by bathing suits and short dresses. Now, the relief they have been "weighting" for has finally come from France with body-shaping expert Madame Nicole Ronsard and

her six point program. "Losing weight is not the point," contends Mme. Ronsard. Her plan, which can also help your health, includes the proper diet, the right exercise, breathing techniques, the best way to eliminate body pollution, learning to really relax and auto-massage.

Her salon treatment in New York cost \$275, but Madame Ronsard has now published a complete, illustrated book her treatments at home. If unavailable at your local bookstore send \$12.95 for the deluxe hard bound edition to Dept. S.N., B&H Publishing, 987 Lexington Avenue, New York, N.Y. 10021. "Cellulite can't disappear overnight," explains Mme. Ronsard, "but lasting results can be expected in most cases."
