The fatal shotgun blasts came from an area where six deputy sheriffs were standing. The report did not identify who fired the killing shots. "The number and variety of weapons brought on campus

by law enforcement units were far more than necessary to deal with an unarmed group of students," the report stated.

According to the report, police carried submachine guns, shotguns, rifles and tear gas guns.

Police invaded the campus after students took over the main administration building conditions, a greater voice in campus affairs, and expanded black studies programs. "Southern University is a

Good organization in packing can save you time, trouble and tears. Here are a few pointers on how to organize clothes and personal items in your suitcase.

· Disposing of Problems. Use packets of hand lotion, detergent, spot remover, perfume, even insect repellent, instead of large breakable bottles. There's even a new premixed, premeasured dis-possible douche that comes ready-to-use in a compact plastic squeeze bottle, pack-ed with detachable nozzle in cellophane wrap. The gen-tle refreshing solution is named Summer's Eve, from C.B. Fleet Co. A few safely packable bottles suffice for a short vacation. Like all disposables, they are discarded after use. The longer your trip, the lighter your luggage. Vertical Packing. It's nothing more than putting heavy, clumsy items on the bottom, lighter garments that have

to be hung up each stop on top. In a double suitcase,

put suits and dresses on one

It's in the Bag. Each group of belongings, such as li rie, toiletries, jewelry, sh belts and hosiery, goes into a separate plastic bag. When you need one item, everything else stays put. You also eliminate the need for unpacking during one night stop-overs.

Please Don't Pack the Passport. Finally, don't pack things you'll need before reaching your hotel room. Passport, hotel confirmation, even street maps to bridge a communications gap, should be kept in your handbag.

Mr. Pottinger said the Justice Department has made no survey to determine the extent, if any, to which municipal laws retain unlawful housing provisions, but "We think the problem is real rather than academic."

He asked the municipal members of the Lantana case so that municipalities will review their ordinances and eliminate any provisions that might impinge on a person's right to equal housing.

In the Lantana case, the 1931 town charter authorized the town council to establish racially segregated areas. Although the policy was never enacted, the town voted to retain the provision in a referendum on March. 14, 1972.

On May 24, 1973, the Justice Department filed a civil suit charging that the segregation provision violated the Fair Housing Act of 1968.

On June 13, 1973, the U.S. District Court in Miami entered a consent decree signed by the town, which delcared the provision void and unenforceable
