### CLEAN CHROME

Chrome surfaces are quick to show smudges but just as quick to return to shiny brightness by wiping with a sudsy sponge and buffing with a soft cloth. Give this simple treatment to those often-overlooked areas, such as switch and outlet plates, lamp bases, door-knobs and drawer pulls.

### SHORT SHEETS

Folding cots for camping trips or overnight guests are narrow and sometimes present bed linen problems. It is economical to use worn or older sheets and mattress pads from larger beds cut to size. By sewing colored thread in the corner of each of these odd-sized sheets and pads it is easy to sort them after laundering and locate them when needed.

### MANY ENEMIES

An estimated 3,000 so-called economically important species of insects will attack cultivated crops this season. And this will be only a part of the farmer's troubles. He will have to contend with nearly as many disease agents, an unknown number of nematodes, rodents, weeds and other competitors.

### WORLD CHURCH RENEWS DRIVE AGAINST APARTHEID

GENEVA — The World Council of Churches is publishing a list of international companies doing business in or with South Africa in its drive against apartheid.

Several of the leading West German corporations are on the list, according to the council. The organization has already sold all of its holdings in the concerned companies and is expected to appeal to its

### NEW S. AFRICAN PARTY FORMED

JOHANNESBURG, South Africa — A new political party designed to promote racial integration of the races will contest the existing government in the next general election, which will probably be late next year or early in 1975.

Theo Gerdener, a former Minister of the Interior, who

resigned last year from the government to give his time to what he called "priority problems in race relationships" in South Africa.
