**WHEAT DOWN**

The wheat crop harvested last June and July in North Carolina was under 6 million bushels and this is a reduction from last year of 15 percent. It is 44 percent below 1971 production. Average yield per acre was 36 bushels, up five bushels from the year before and down seven bushels from 1971.

**CARPET STATIC**  
There is an anti-static component now being applied to some carpets that helps them resist soil and keeps dirt from clinging. This component is optional by some carpet manufacturers, says Mrs. Edith McGlamery, extension house furnishings specialist, North Carolina State University.
