

# Andy Griffith To MC N.C. Inaugural Ball Jan. 7

RALEIGH - On January 7, 1977, Andy Griffith, well-known television and movie star, will come home to North Carolina to act as Master of Ceremonies for the Inaugural Ball. To be held in honor of Governor-Elect and Mrs. James B. Hunt, Jr. and the incoming Council of State, the Ball will be given at the Williams Neal Reynolds Coliseum in Raleigh.

Governor-Elect Hunt, whose campaign stand in support of increased development of creativity in North Carolina brought nationwide attention to a state already noted for its many "firsts" in the arts, asked the North Carolina Symphony to act as co-sponsor of this event. Proceeds will be divided between the Junior League, whose long-standing involvement with the Ball is well recognized, and the Symphony.

Entertainment at the Ball will include a sparkling array of nationally known celebrities from North Carolina. To welcome incoming guests, the North Carolina Symphony, performing under the baton of Maestro John Gosling, will present selections by American composers with a finale to include the North Carolina Symphony Youth Chorus. Following the presentation of Governor-Elect Hunt and other honored guests, such favorites as the Grandfather Mountain Choppers, and singer Carol Sloane with her jazz trio will entertain. Miss Sloane will include in her program with world premiere of "I Love North Carolina" written by Lee Wing of Durham. As Griffith winds up the evening with his own homespun humor, the Symphony will swing into a waltz led by Hunt and members of the incoming Council. This will be followed by dancing to the music of Bob Haas and his 18-piece orchestra.

Tickets for spectator-only seating are now available for \$3.00 per person. These tickets provide a view of the program and the Ball itself and may be purchased by mail through the Inaugural Ball Office, Hilton Inn, Suite 200, Raleigh 27605, or by calling (919) 829-4353.

At the same time, \$25 tickets for one table seat and dancing; \$100 Ball Patronage tickets which include two seats dancing and a program listing; and \$500 Ball Sponsorship tickets for an entire table seating 10, dancing and a special Ball program placement listing are on sale through the Ball Office.

According to Dr. Lawrence J. Wheeler, Ball Co-Chairman, thousands of Tar Heels are expected to attend this celebration. In addition, numbers of distinguished guests from all over the nation will honor the special occasion.

Section 2 of the Sherman Act in the US District Court for the District of Columbia filed in November of 1974, naming the American Telephone and Telegraph Company, Western Electric and Bell Laboratories as defendants, and the 23 Bell

system telephone companies as co-conspirators.

The complaint charges unlawful conspiracy to monopolize, attempt to monopolize and monopolization of interstate trade and commerce in telecommunications service and equipment.

# Crude Oil Price Rise Would Be Felt by All

The threat of another price rise in imported crude oil has Americans again thinking more seriously about energy—how it's used

and how it can be conserved. North Carolina State University extension specialists explain that industry is the largest user of energy in the

U.S., accounting for a little more than 40 per cent of the total consumption. When the cost of this energy goes up, it's felt all the way down the line to the consumer.

Transportation is the second largest energy user. About a quarter of all the energy used in this country

goes to move people and things. Some of it is used very inefficiently.

Airplanes, for example, are the least efficient users of energy in transportation, but they rank just barely ahead of automobiles in this dubious distinction. The most efficient trans-

portation from the standpoint of fuel economy is public transportation—buses and trains.

About one-fifth of the U.S. consumption of energy is used in homes. Here, heating and cooling are the major users.

# How it Began...

AESOP'S FABLE OF THE ANT-- WHO WISELY STORED FOOD FOR THE WINTER-- AND THE GRASS-HOPPER-- WHO FOOLISHLY DID NOT-- ILLUSTRATES THE IMPORTANCE OF PREPARING NOW TO AVOID LATER SUFFERING. REPEATED THROUGHOUT HISTORY, THAT VERY IDEA IS A BASIC PRINCIPLE OF TODAY'S LIFE. INSURANCE, MORE AND MORE, THOUGH PEOPLE ARE BENEFITING THEMSELVES FROM SUCH PREPARATION, THROUGH COMPANIES LIKE METROPOLITAN, WHILE AT THE SAME TIME THEY ARE PROVIDING FOR THE FUTURE NEEDS OF THEIR FAMILIES.

THE ANT MIGHT HAVE LEARNED HIS LESSON FROM THE EGYPTIAN PHAROAH WHO WISELY ORDERED HIS PEOPLE TO STORE 20 PER CENT OF THE FOOD THEY RAISED DURING THE SEVEN YEARS OF PLENTY SO THAT THEY WOULD NOT SUFFER DURING THE SEVEN YEARS OF FAMINE FORETOLD BY THE ROYAL SEERS.

AND WITH THE IDEA OF INDIVIDUALS PREPARING FOR THEIR FAMILIES' FUTURE NEEDS CAME A POOLING OF THE RISK, OR HAVING MANY PEOPLE PREPARE FOR A TIME WHEN ANY ONE OF THEM MIGHT FACE HARDSHIP. THUS MERCHANT SHIPPERS IN ANCIENT TRADE-- SCHOLARS INDEED-- SHARED THE LOSS IF PART OF A CARGO HAD TO BE SACKFICED AT SEA IN ORDER TO SAVE THE REST.
