Allison And Ruffin Report

(Continued From Front Page)

in the Democratic barn." Secretary of State Thad Eure. She reported Eure employs 27 people of whom four are attorneys, with three blacks in the positions of messenger, mail clerk and secretary. Dr. Allison said that Eure responded to questions about his intentions to affirmatively hire blacks saying, "for forty years he has served as Secretary of

State and has always had a black." Allison said that Eure's black was always a messenger, and Eure said that he, "started doing what's right before somebody's pushing him." Almata Armstrong, representing the 8th Congressional District gave a list of several job vacancies within the Agriculture Department. She said that Jim Graham, Secretary of Agriculture promised to inform the caucus of any vacancies.

Ben Ruffin, representing the

4th Congressional District reported for Lawrence Graves who met with the Attorney General Rufus Edmisten. Of 635 jobs 59 are held by blacks including 4 black lawyers, three of whom are females. Edmisten's department is the only state department that has begun to implement an affirmative action plan.

A report was not made on the status of black employment within the N. C. Department of Administration, the closest department to the Governor. Joseph Grimsley, Hunt's campaign manager, is director of the department which has 41 policy making jobs, the highest of any state agency. The CCNS survey showed that blacks have been appointed to only three of the 41 positions. Harold Webb, John Edwards, and Frank Turner hold the positions. Grimsley's personal staff, excluding one receptionist are all white.

Dr. Allison held an impressive computer print-out of jobs in state government and disclosed glaring discrepancies in previous hiring of blacks at all levels except the lowest in state government. Below are seven categories of employment and the number of blacks hired at each level:

- Level No. 1 — \$25,000 and up - 480 whites - 8 blacks:
- Level No. 2 — \$16,000 - \$24,999 - 3,292 whites - 392 blacks:
- Level No. 3 — \$13,000 - \$15,999 - 4,795 whites - 335 blacks:
- Level No. 4 — \$10,000 - \$12,999 - 8,016 whites - 721 blacks:
- Level No. 5 — \$8,000 - \$9,999 - 13,194 whites - 2,961 blacks:
- Level No. 6 — \$6,000 - \$7,999 - 6,861 whites -

3,259 blacks:
Level No. 7 — \$4,000 - \$5,999 - 481 whites - 600 blacks.

The chart above shows a long known and existing pattern of racial discrimination of blacks in state government. Whether the N. C. Black Democratic Leadership Caucus will make a dent in the gross discrimination that they research and describe depends in many ways on the longevity of the organization and its grassroots participation. Mayor of Roper, E. V. Wilkins, made the point well when he read a letter that was sent to communities in the 1st Congressional District explaining the history of the N. C. B. D. L. C. and urging participation of blacks throughout the district in the next meeting. Wilkins said that much emphasis of the organization is placed in efforts within the piedmont and central North Carolina but that greater effort should be spent in the 'hinterland'. Similar expression was made by H. B. Seets, President of the Person County Branch of the NAACP.

The N. C. B. D. L. C. is not the only organization of its kind operation within North Carolina. It was organized shortly before the November election by Hunt supporters who were called "keys" in a Chapel Hill meeting. Their primary objective has been to participate in the 'spoils' of the Hunt victory.

Two other black caucuses have been organized within the last two years, one of which is still operating, according to its chairperson, Harris Johnson, who is very critical of the newly organized caucus.

Next week: A special report will follow on the causes of decline of other N. C. Black Caucuses and where they are now.
