Controversy of East-West Expressway Continues

At a City Council public hearing Monday night on the proposed extension of the East-West Expressway, proponents contended that economic growth and resoltuion of traffic problems in West Durham would be the benefits.

The hearing was one of several held recently by the City Council and the North Carolina Department of Transportation. Whether the Crest Street community will be wiped out by extending the expressway ultimately is a decision of the City Council. A decision was not made after the Monday night hearing.

Before you take Doon's PMs for muscular backsche, remember this: MOMENTUM Tablets are 50% stronger than Doon's. That means MOMENTUM gives you 50% more pain reliever per doon to relieve backsche.

To reduce pain, soothe inflammation so muscles lossen—you can move more treely in minutes! There's no stronger backache medication you can buy without a prescription than MOMENTUM Tablets. Take only as directed.

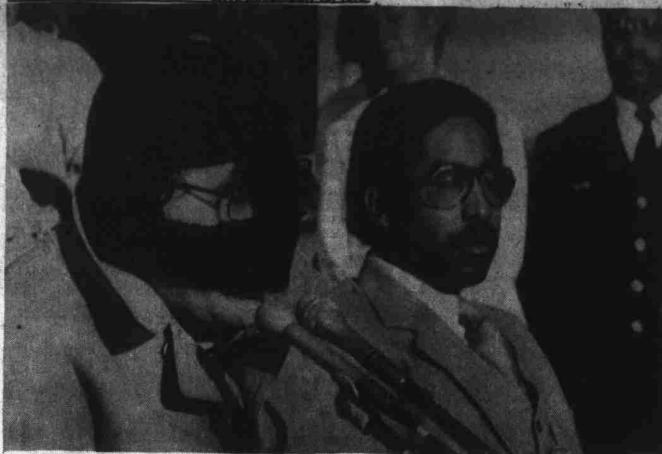

Association, and Attorney Claude Jones, representing the West Durham Merchants, spoke in favor of extension.

Opposing the extension were residents of the Crest Street Community who contended that the highway would increase air pollution in the area and would destroy the close relatonships of caring for one another which now make it possible for the elderly who live alone to remain in their homes. Ms. Antionette Booth, a resident of the community, said that its "not Social Services" which looks out for them, but rather, "it is the people from the Crest Street Community."

Turner, representing the Durham Branch of the NAACP said that the only benefit of the expressway "is to help the rich get richer and the poor get poorer."

The majority of the Crest Street residents

are black who will be moved elsewhere if the present expressway plans are carried through. A proposal was made for the community to be moved to a place close by which is owned by Duke University.

other items.

Senior citizens with Carolina Action marched into Winn-Dixie stores in Durham, Raleigh, Charlotte and Greensboro last Thursday and presented the "Food Buyers' Bill of Rights" for the first time. The official Winn Dixie responses were received the following Monday and Tuesday, informing seniors of Winn-Dixie's agreement with three of their requests and arranging for meetings with seniors across the state to discuss the remain-

ing requests.

"We're pleased with three of Winn-Dixie's responses—the "yes" ones," said Ms. Denning. "We're still working for the two that remain. We want to see every senior citizen at our meeting with Winn-Dixie.

How many times have you grumbled when you read or heard how more than forty percent of our Black youths are unemployed? What thoughts came to your mind? Racism? Unqualified? Well, some thoughts come to my mind, but they are not racism nor unqualified.

All negatives in the Black community are not the result of racism, and I am proud of the thousands of youthful Blacks who have acquired college educations. Unqualified is an excuse that the private sector will have to eliminate. But, my young friends, I want you to remember that acquiring an education should have done more than prepare you for a job, it should have also taught you how to think.

education should have done more than prepare you for a job, it should have also taught you how to think.

So, you haven't been able to find a position in the field in which you studied, but is that reason enough to sacrifice your pride and dignity. That's right! When you are not working, you are not only an unemployed statistic, but you are also without pride and dignity. You can't force business and industry to create new jobs, but you can retain independence and pride by working. Where? The same jobs that helped your parents and grandparents survive years ago ... that's right, waiters, bellhops, and waitresses. As the old adage goes: "A bird in the hand beats two in the bush," and always remember that you can still look for your ideal position while working on the less desirable job.
