PRESENTING the Bertone Coupe

The Bertone Coupe is for the individual who is able to appreciate classic Italian craftsmanship and innovative Swedish design. Inside, you encounter the smell and feel of soft, selected hides of furniture-grade Italian leather — painstakingly

handstitched on every seat. When you drive it, you will experience the quick response of a light alloy fuel-injected V-6 engine. And a suspension that enhances your sense of complete control, personal safety and comfort. Unfortunately, less than 1500 of these

remarkable automobiles will be made available this year. So, get to your Volvo dealer quickly. Otherwise, even if you can afford one, you might not be able to get one. The Bertone Coupe by Volvo.
