The Durhamites To Present Fourth Annual Scholarship Award

THE DURHAMITES of the Washington, D.C. Metropolitan Area proudly announce the presentation of the organization's FOURTH ANNUAL SCHOLARSHIP AWARD which will be made on Saturday evening, May 23, at the International Inn, No. 10 Thomas Circle, NW, Washington, D.C. (conveniently located in the downtown area - 14th Street and Massachusetts Avenue, NW).

The support and contributions received from fellow DURHAMITES have enabled THE DURHAMITES to donate a \$1,000 scholarship to a worthy student of Durham, North Carolina for three consecutive years. Last year's recipient is nearing completion of his freshman year at the University of Florida. Appreciation is extended to each contributor for the success of making an aspiration a reality.

This year, THE DURHAMITES plan to donate a fourth scholarship to another deserving senior high school student in the city or county of Durham, North Carolina, to provide financial assistance during the first year of college.

In addition, concerted efforts will be made to continue the trend of responding to local community emergencies and individual needs. The loyalty and support of the many friends of THE DURHAMITES, not only provide funds so sorely needed to carry out the programs of the organization, but serve as an incentive for the organization to strive for the accomplishment of greater objectives.

Individuals, small groups and organizations: for further information/tickets, write: THE DURHAMITES, c/o Mr. James Turner, Chairman, Ways & Means Committee, 1800 Sycamore Street, NW, Washington, D.C. 20012.

Lauch Henry helped find the missing ingredient to educate minority engineers. Money.

Lauchland Henry is a teacher. And a scientist. And an engineer. He's genuinely concerned about other people. And he has expressed some of that concern in his participation with the National Fund for Minority Engineering Students

The fund is a non-profit organization attempting to increase the number of Blacks, Puerto Ricans, Chicanos, Mexican-Americans and American Indians enrolled in engineering schools

These under-represented minorities constitute a rich untapped resource to help fill the growing need for engineers, a need that is expected to continue through the mid-1980's.

IBM's social leave program enabled Dr. Henry to take a year's leave to assist the fund. And IBM continued to pay him his full salary.

The National Fund for Minority Engineering Students is a very worthwhile program. We think so. Lauchland Henry thinks so. But most important of all, lots of minority engineering students enrolled at colleges and universities all over the country think so.
