The Frog That Wouldn't Move

By Eddie R. White

There was a frog sitting on a pattie and wouldn't get off. So a boy saw it and threw rocks at it. But the frog would not move.

The boy called the Army and the Navy. They all shot, too, and missed.

So the Army called the police. The police shot, too, and missed.

So they all gave up and went back to work. When they left, the frog hopped away.

Note: I hope you like my story. I'm in Third Grade. I like basketball. I go to Saint Ann's School. I'm nine years old — August 11, 1971.
