And that all of of North Carolina Social these women are engaging Services Association at in promiscuous sex, which "The Abortion Rights Crisis" program held is untrue. There are many Wednesday, May 13, in the Durham Public cases of unreported rape." Ms. Bullard explained that the Moral Majority has made it seem "The right to choose a that everybody who is religious must be against safe and legal abortion is gravely under attack," she said. "As a social worker,

the choice of abortion, which is untrue. She said that there are a lot of people pro-choice, and there now exists a North Carolina chapter of the Religious Coalition for Abortion Rights, of which she is a member. RCAR is a national organization composed of 26 national Protestant, Catholic, Jewish and other groups to protect the option of a legal abortion.

"The religious aspect of this Amendment is very important, because religious groups hold diverse and conflicting doctrines on when life begins. The anti-choice group is attempting to translate on conviction and make it law for all."

Ms. Bullard firmly stated, "People and the press have been missing our belief, and the anti-group has been getting in a lot of good light by delivering gory pictures to the legislators of babies in caskets, bleeding swastikas, and aborted fetuses. But we could use similar tactics and deliver gory pictures of suicide mothers, suicide families, battered children, but it is

not necessary.' even pregnancies resulting As ladies in the group from rape or incest would be forbidden. And those questioned each other on abortions necessary to action needed, Ms. Bullard told the group to save the life or preserve the health of the mother get more women involved in the National Organizawould be forbidden. tion for Women, Inc. School Concept Studied

By Donald Alderman A committee reccomen² dation to replace Durham

city junior high schools with middle schools brought both criticisms and praises Monday as several parents questioned committee members about the implications and neccesity of the suggested concept at a public hearing.

After a six-month study, the committee's 25-page report concluded: "Basically junior high schools are organized in the same manner as high schools and are not designed to provide a transitional program from school." elementary Therefore, the middle

adoption recschool comendation was offered to the school board.

wards, Allegra Award.

However, the committee warned, "The contrast between the middle school concept and the typical junior high school is However, significant. neither organization is capable of solving all of the problems that beset the education of young adolescents."

Howard Clement, committee chairman, said the city's junior high schools had "strayed away from their original purpose" had become and "mini-high schools."

Parents were concerned that the middle schools likewise. would do

Award; Mrs. Shirley Edmore child-oriented than the present subjectoriented junior high curriculum.

According to the committee report, the middle school curriculum is viewed as a basic skills building unit. This design allows for a smooth transition to high school.

Parents were concerned that the change may not be in students' best interest. Clement assured them that any policy adopted by the Durham City School Board would be what they perceive as best for all children.

In elaborating, he said students entering junior high from elementary school were not instructionally or emotionally prepared to accept the challenges and responsibilities thereof; that middle schools would allow more student growth and

development.

Harry.

When asked whether the change would cause a decline in the present drop-out rate, Clement said the new concept will reduce many junior high peer pressures while placing more emphasis upon skill improvement. Thus, a drop-out rate decline will be expected.

Parents said many city school problems were a result of poor elementary, teaching. Clement said the committee was charged to study the middle school concept; that the superintendent is currently proposing policies to deal with elementary school deficiencies.

Parents also praised the concept saying all students will greatly benefit by its adoption. Clement said the new

concept is not an indictment upon the junior high system but rather an improvement.
