## Change Finds 'Paradise'

Following the rise of their single, "Paradise" to the top of the dance charts, RFC/Atlantic recording artists Change take time out from their current concert tour to thank some friends for their help in making their new *Miracles* album a hit.

Pictured with four members of Change are RFC President Ray Caviano (first from right, standing) and RFC Vice President Bob Siegel (second from right) of RFC Records along with Change's executive producer and Atlantic Records executive who visited with the band backstage after a recent show at New York's Beacon Theatre.

And what advice did their friends offer Change after "Paradise" hit number one? "Hold Tight," of course, which is the title of Change's new single climbing the charts.
