FOSTER HOMES FOR "SPECIAL NEEDS" CHILDREN — Children are continuously coming into foster care. Foster care provides for the emotional and physical well-being of a child temporarily. A person wanting to become a foster parent should take a look at his/her personal situation. Could he/she best serve a child for emergency care

a few weeks, months, or long-term care, which could mean years of caring for a child?

The Durham County Department of Social Services needs foster parents for school age children, children with emotional problems, physical and mental handicaps adolescents, and sibling groups, "special needs" children. The basic requirements to

become foster parents are not that difficult. One must:

- be 21 to 65 years old;
- provide a healthy living environment and meet standards for sanitation and fire safety;
- have adequate sleeping space; and
- have a stable income.

The crucial and most important criterion for becoming a foster parent is to be able to be committed to helping children. Most of these children will come into care with emotional problems related to physical, emotional or sexual abuse, neglect, abandonment or death of their parents or legal caretakers. The loss of family and friends, and familiar places can be extremely traumatic for a child. He may manifest his feelings of loss in many challenging ways. It might be necessary for the foster parent to be an active participant and advocate for the child in school or participate in family counseling. For children with special medical needs, it might require special training. The needs of these children are many.

Monthly informational meetings on foster care are held at the Department of Social Services. For dates and times, please call the Homefinding Unit at 683-3500. If you believe that you can provide care for any of the "special needs children", there will be immediate follow-up as this is the area of greatest need.
