"We are percent than would be carned in one year from a \$5,000 30-month cer-tificate yielding 16.54 providing intensive train-ing on all elements of the expect a con-

siderable number of our certificates to range from the \$500 minimum to certificate for our per-sonal bankers, and the best advice I can give to consumers is to en-\$7,500, which means that many 'small savers'

will be investing in the certificate," he said. "Most of the total dollars going into the new certificates is likely to come from six-month, \$10.00 minimum money. \$10,00 minimum money market certificates, however," he said. Ap-proximately \$1.5 billion these certificates mature during the last three months of the year at North Carolina banks, тапу of these certificate-holders will be able to realize a greater return by moving money into an All-Savers Cer-tificate because of the tax-exemption feature

associated with it. "At the same time, the tax exemption will make it more difficult to figure the actual return after taxes," Brewer said. taxes," Brewer said. "To simplify this process we have developed a chart which will be avail-

courage them to discuss the merits of the cer-tificates with someone where they bank." The All-Savers Cer-ficate, approved last The All-Savers Con-tificate, approved last month by Congress, is intended to provide an incentive for people to save, to help the savings and loan industry and to stimulate housing. It will be available from October 1, 1981, through December 31, 1982. It

be

allows maximum exemp-tions on federal income taxes of \$1,000 for an in-dividual and \$2,000 for a couple filing a joint return.

## Spectacles: A Closer Look The Assault on the **Black Male**

By Ada M. Fisher

Where are the black men? Looking around across the nation, the paucity of black men is striking. From all flanks, the black male is under attack with the murders of young black male children and young men in Atlanta as but one symptom of the on-going personal assault which our men face.

Society at large plays cruel games with black men which enhance their demise. At birth, there are ap-proximately 103 to 106 black males born to every 100 black females. At birth and thereafter, the black male infant is more likely to die than all others due in part to socio-economic circumstances. Hence, by age two, there are less than 100 black male toddlers to every 100 black female toddlers. In male toddlers to every 100 black temale toddlers. In adolescence and young adulthood, what numbers accidents don't claim, homicide and suicide do. In later life, high blood pressure, diabetes, strokes, etc., will claim the lives of over fifty per cent of black men before they reach the age of 65. This means that plans to up the retirement age to 70 will force the majority of black men to work all of their lives without any hope of retirement lives without any hope of retirement. Black men have fought valiantly in all wars that

black men have fought valiantly in an wars that this nation has chosen to enter. From Crispus At-tucks in the American Revolution to our friends, lovers, and neighbors in Viet Nam. Dispropor-tionately have we laid down our lives in combat on-ly to return to rejection at home and slow infre-tion of the amility ranks. The quent advancements within the military ranks. The prisons swell with our men and some statistics note that 40% of all prison populations are of black males. From a group that represents only 12% of

As the black athlete's face has gained center stage in the balk parks, attendance figures have declined. The Bakke Case reaffirmed the lack of commitment we have had to equal opportunities and affirmative action for blacks. Those fields such as medicine, where we once were gaining, now again show a decline in the number of black males participating fully. Looking out upon the sea of graduates at predominantly white institutions, the sprinklings of black faces showed a majority of them belonging to black women, even though the black male athlete has often brough the man and focture to the instituhas often brought fame and fortune to these institutions

Amidst the shrinking ranks of those black males left to our communities, their masculinity and sur-vival is being challenged daily. For many, the homosexual lifestyle is becoming an option of choice, leaving fewer black males for black females and causing many to question the survival of black families. On their home front, many black men feel that their role as "breadwinner" is threatened by their inability to find gainful employment, especial-ly in economic hard times such as these. The con-flicting love-hate relationship between black men and black women is supposedly driving them from the arms of black women to those of white women. And, the pseudo-glamour of the "playboy" superfly black male, so painfully illustrated by the seven-ties era of black exploitation films, has confused many minds with a subsequent desertion of respon-sibility to children and families being realized.

Hundreds of black men suffered public castra-tions and hangings inflicted for real or imagined tions and hangings inflicted for real or imagined liaisons with white women. The open shootings of black men in Buffalo and the hanging of a black man in a southern city should be a reminder that things haven't changed as much as we'd like to think. For all of our criticism of the Reagan Ad-ministration, his is the first since the Johnson Ad-ministration in 1967 to have a black man as a cabinet official. But let us not be deceived, one man does not point to a commitment to fairness nor do tokens thrown in our way. tokens thrown in our way.

tokens thrown in our way. The saddest event occurring before our eyes is the "tuning out" which many young black men are now doing. No matter how boring the work may seem, without a good education, a black man doesn't stand a chance in today's computerized society. You don't get it standing on the block with the Afro comb propped in your hair, while publicly grabbing yourself. The tragedy of black youth to-day is that so many are castrating their most day is that so many are castrating their most impor-tant organ, their brains, by failing to get an educayou realize it or not, we are engaged in a great Civil War. #### NCC Condemns (Continued from Page 16)

Americans to speak out against South Africa's policies in southern Africa was expressed to the executive committee and at the press briefing by B.N. Sequeira of the by B.N. Sequera of the ministry of foreign af-fairs of the People's Republic of Angola. "We need your support for Namibia, for the South-West Africa Peo-le's ple's Organization (SWAPO), which is (SWAPO), which is fighting against incredi-ble odds for its freedom," he said, "because if the South A faine African regime can be saved, it is the United States that will save it save it to continue its policies of inhuman treatment and oppres-

sion." Christians in the U.S. do not stand alone in deploring South Africa's action. The Rev. Maxine Rafransoa, general secretary of the All Africa Conference of Africa Conference of Churches, Nairobi, Kenya, also attended the meeting and said, "This resolution is consistent with one we made at the fourth assembly of the All Africa Conference of Churches in Nairobi this summer and with a statement made two weeks ago in Dresden at a meeting of the central committee of the World Council of Churches. It is a confirmation that the Christian brothers and sisters of the world are together against the
