SHARED-RIDE TAXI SERVICE is now in operation. Participating taxicabs are identified by a red and white "SHARED-RIDE" sign.

Fare charge for shared-ride taxi service is based on zones instead of a taximeter. The fare zones are established by dividing the city into eight sections. The charge to the patron for traveling in these zones is: \$2.50 for the first zone in which one travels, 50¢ for the second zone traveled in, and \$1 for each additional zone in which one travels to reach his/her destination.

Here is an example of how much a shared-ride taxi trip would cost: If a person rode a shared-ride taxi from Wellons Village to South Square, he/she would travel in three zones. Therefore, the cost would be \$4. The same trip in a regular taxi would cost approximately \$7.45.

To use shared-ride taxi, potential riders should call a taxicab company providing shared-ride taxi service and tell the dispatcher where they would like to be picked up, where they would like to go, and when they would like to arrive. The dispatcher will be able to tell them the cost of the trip at that time.
