HEART ATTACK VICTIMS SOUGHT FOR CHOLESTEROL STUDY — One-time heart attack victims, ages 29 through 64, are currently being sought to participate in a study which lowers cholesterol to unprecedented levels. With heart disease claiming 800,000 lives annually, the National Institutes of Health is funding four research centers across the country to explore the role of lowered cholesterol in the treatment of heart attack victims. The aim of researchers is to find conclusive evidence that maximal reduction of this fatty substance will significantly reduce the risk of heart disease.

The East Coast Center, which opened a short time ago, is located in Philadelphia. The center provides transportation and lodging for all prospective participants and an interested family member to come in for a screening visit. Persons 29 through 64 who have suffered one heart attack within the last five years are urged to contact the Hyperlipidemia Study for more information. Call, toll free, 1-800-345-1057.

YOU'VE LEARNED A LOT IN SIXTY YEARS — Why keep it to yourself? The Retired Senior Volunteer Program will help you find a way to share your knowledge and skills. Volunteers are needed to: visit desperately lonely patients in nursing homes, tutor in a public school on a limited basis, or prepare tax forms for Durham citizens.

RSVP provides travel reimbursement and free insurance coverage. For more information, call Ms. Helen Pressley or Ms. Kathy Walters, 596-9311, extension 321, Durham Technical Institute.
