### **Huey Picked For** All-Conference First Team

Mike Huey, a 6'4", 240 lb., senior at Jordan High School, was one of two Jordan football players elected by coaches in the Triangle 3-A Conference to the first team All-Conference.

Huey is a place kicker who has been very consistent within the 43-yard range. He attempted seven field goals and was good on five, two of which were 43 yards, two were 35 yards and one was 38 yards. Huey missed two fields. One was a 53-yarder which fell just a few feet short and a 40-yarder which barely missed the uprights. In the last game of the season, Huey kicked two

field goals, a 35-yarder and a 38-yarder. These could have easily been 50-yarders, with the height and distance he had on them. He also kicked an extra point, made two tackles, and recovered one fumble which set up one of his field goals.

## **Sports Souly**

The history of man reflects that he best operates in a group. Team sports show this better than almost any other kind of human endeavor. Many of the virtues of collective effort are pronounced, preached, and practiced by successful athletic teams.

Champions know what getting a good group effort really means. It means a chance at reaching a goal that is more than the sum total of each individual goal. It means sports souly, in sports. . . the best of life in life.

### **Student Athletic Aims**

More college athletic programs are increasingly promoting facts about their student-athletes' high academic achievement. This may mean that more and more student-athletes are putting it all together, or are having it put together for them.

Look to see what your favorite school is doing to guide its student-athletes in their studies. Indeed, high schools and since East Coast, Duke return- your questions and interest will help some in their academic aims. Do you have a son you want to become a sports star? Are you a former athlete? The sports poem below is offered for your thoughts.
