Cranston Presses Congress

Democratic Whip Alan Cranston (Calif.) said Thursday, March 18, Congress should order the Federal Reserve Board to "follow a policy that would bring about lower interest rates"

"The Fed, though independent, is a creature of Congress and Congress has the power to compel the Board to ease its tight money policy," cheon meeting of the Century 21 National **Brokers Communication** Congress at the Capitol Hilton Hotel.

Cranston, a member of the Senate Banking Committee, said he will introduce legislation directing the Fed to comply with a timetable President Reagan and Congress last year agreed should be followed to determine how rapidly the money supply should be allowed to grow.

It was understood that the rate of growth should be reduced gradually over the next five years, "but the Fed is more than eighteen months ahead of schedule," Cranston said.

Angola Business Under Attack

(Continued from Page 17)

"They're very Import Bank, the World businesslike, and we Bank and the Internahave found it to be a tional Monetary Fund mutually advantageous will take part. The relationship." Gulf, meeting was organized which began operations by Helen Kitchen, direcin Angola in 1957, gets tor of African Studies at 49% of the Cabinda oil the Center, whose field's output - which predecessor was the rels per day. Total Angolan production is about 160,000 barrels daily.

In the view of critics. Gulf's activities go against the grain of cur-rent U.S. foreign policy. "Here we have Gulf supporting a Marxist government, a Sovietpolicy they can support. "Certainly, we get hard-line talk all through the sponsored government — Cuban soldiers, and the SWAPO bases which is inconsistent. with the stated policy of the Reagan administration," said Smoak's law partner and Trade Coun-. cil chairman Carl Shipley

in a separate interview. Wooten, who is senior director of planning and policy, analysis at Gulf, sharply disagreed: "We have been encouraged over the years to maintain financial ties with Angola, both by word and deed. This was true under the Carter administration and it's been true under the Reagan administration."

He cited the decision - he has since gone on last November by the Export-Import Bank to extend \$85 million in credit for a \$160 million gas injection project to substantially boost output in the company's Angolan fields.

(The U.S.-Namibia Council has also filed suit to block that loan by American government-run lending agency.)

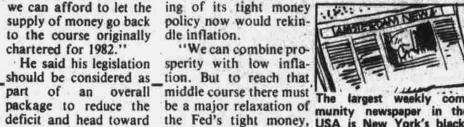

On Wednesday (March 24), Gulf is scheduled to take part, along with other companies doing business in Angola and those that are interested in learning more about potential opportunities, in an all-day seminar on Angola's economic prospects at the Georgetown University Center for Strategic International Studies. Angola will be represented by senior government officials, including the governor of the Banco Nacional de Angola, Jose Carlos Victor de Carvalho.

Significantly, Reagan dministration officials from Commerce, State, and the Agency for International Development along with representatives from the Export- by South African forces
