

Calendar and Announcements

JUST OPEN A BOOK is the theme for Durham County Library's summer reading program. Children preschool through sixth grade are invited to sign up for the program at any library location.

Children started reading in the program on Monday, June 14 and will continue through August 7. Reading lists and game sheets featuring JOAB frog

and his friends will be given to the first 1400 children who complete and report on a book. Those children completing ten or more books will receive certificates and be invited to an awards picnic.

Children who cannot read to themselves may participate by having someone read to them, then reporting on their books.

Many programs have been planned for children in relation to the theme "Just Open A Book". Programs such as stories, song fests, dramas, and films will be featured at various branches and the Main Library. Contact individual branches or the Main Library for dates and times.

The picture book "Just Open A Book" by P.K. Hallinan provided inspiration for the reading club materials. The theme is being used in 96 counties across the state.

An additional treat for Durham children is the Reading Is Fundamental (RIF) program. Children participating in RIF will be allowed to select a free paperback book by just coming to the library during Reading Is Fun week, June 14-19. The books which will be given to the children have been purchased by money donated by Friends of Durham Library, Inc., and matching federal funds. Children must be at least three years old to participate in RIF.

THE N.C. MUSEUM OF LIFE AND SCIENCE
433 Murray Avenue, Durham. 477-0431.

• **PETTING ZOO:** The NCML S offers a closer look at the barnyard animals every Saturday at 10:30 a.m. The Petting Zoo allows children to ask questions about the animals, touch them, and help to feed them.

• **EXHIBIT** Visitors can relive an exciting decade on interplanetary exploration in an exhibition of spectacular color photographs of the sun, the planets, and their moons, on display at the NCML'S through July 11. "Exploration of the Planets" displays 31 of NASA's most significant and visually stunning photographs resulting from the past ten years of space exploration. Outstanding in the collection are four outsized photographs of Venus, Jupiter, Saturn, and the sun, and a full view of Earth taken by the 1982 Apollo mission. Also featured are views of Saturn from the 1980 flyby of Voyager I. The exhibition was produced by the Association of Science-Technology Centers with the assistance of the National Aeronautics and Space Administration.

Many activities are planned to make "Exploration of the Planets" a more complete experience. For complete information schedule, contact the Museum.
