

Lenzie G. Barnes To Be Awarded In Detroit

Lenzie G. Barnes will receive the Elder Watson Diggs Award at Kappa Alpha Psi Fraternity's 64th Grand Chapter meeting to be held in Detroit, Michigan in August.

The Elder Watson Diggs Award was initiated in 1978 for those members whose contributions to the Fraternity and to their communities deserve national recognition. It is the second highest honor the fraternity bestows.

Barnes retired as a member of the U.S. Board of Civil Service Examiners after having lived in Washington, D.C. for more than twenty years. A Durham native, he is now a local building contractor. While in Washington, Barnes formed a non-profit corporation which developed the \$140 million inner city community known as Capitol View Plaza.

In 1976, Barnes was a Republican candidate for the 4th Congressional District. He is a life member of Kappa Alpha Psi Fraternity and serves on the Board of Directors of the Durham Alumni Chapter of Kappa Alpha Psi Fraternity. He is a graduate of North Carolina Central University. A World War II veteran, Barnes was awarded a Bronze Star for participation in the invasion of southern France, the invasion of the Rhine, and the Battle of the Bulge.

Miss Monk is Bride of Grover C. Burtney, Jr.

Miss Wanda Pamela Monk and Grover C. Burtney, Jr., were married Friday, May 7, at Beulah Retreat and Conference Center in Siler City.

The bride is the daughter of Mr. and Mrs. Gaston Monk of Bell Arthur, N.C. She attended Farmville Central High School and received a B.A. degree, cum laude, from Spelman College in Atlanta, Ga. She is a field claims representative for State Farm Insurance.

The groom is the son of Mr. and Mrs. Grover

C. Burtney of Durham. He attended Howard University, graduated from the Cincinnati College of Mortuary Science, received a B.A. degree, cum laude, from Duke University, and his J.D. degree from the University of North Carolina School of Law, Chapel Hill. He is funeral director and embalmer at Burtney Funeral Service, Durham.

A reception was held to honor the couple on Saturday, July 3 at 4 p.m., at the Holiday Inn in Greenville.

Mr. & Mrs. Grover Burtney, Jr.

\$1 Million Fund-Raising Goal Achieved By Morehouse

ATLANTA — The Morehouse School of Medicine's Campaign has reached its local goal of \$1 million, according to Donald R. Keough, volunteer chairman of the fund-raising effort. Keough, president and chief operating officer of The Coca-Cola Company, is a trustee of the medical school.

Dr. Louis W. Sullivan, president and dean of the Morehouse School of Medicine, said, "In a

few short months, Keough's committee has raised over one-half of the funds necessary to finish equipping our Basic Medical Sciences Building. A campaign to raise a second million from outside Atlanta will begin in the near future. In addition to equipping the new structure, these gifts will be used to purchase additional land for future expansion of the medical school campus."

The Basic Medical Sciences Building, now nearing completion, encompasses 91,000 square feet. It was funded by a \$5 million grant from the Federal Government, which was matched by \$1,250,000 in gifts from private sources. The new building is the medical

school's first permanent facility.

Keough said, "The support received by the Transition Campaign Committee from the Atlanta business community has been excellent. The business leadership in this city is proud of what Morehouse School of Medicine has accomplished in so short a time, and it has backed up that pride with financial support."

Keough was assisted by three vice-chairmen and 19 other volunteer solicitors. The former

are W. Lee Burge, chairman and president, Equifax Inc.; Paul L. Dillingham, vice president, The Coca-Cola Company; and William C. Hatcher, president, Genuine Parts Company.

The Morehouse School of Medicine, the only minority-oriented medical school to be established in the 20th century, is designed to educate primary care physicians who will practice in the medically underserved inner cities and rural areas of the United States.

City Changes Water Policy July 1

On June 21, 1982, the Durham City Council passed the following changes to become effective July 1, for increases in fees and charges for various services provided by the City's Water and Sewer Utility.

At present, the deposit for water service is \$5.00 for domestic customers within the City and \$10.00 for customers outside the City limits and is refunded after one year. Effective July 1, 1982, the deposit will be \$20 for customers inside the City limits. The deposit requirement excludes owner-occupants of single family houses, townhouses and condominiums. The deposit for commercial, industrial and institutional customers will be determined by the size of the meter required.

A cut-off/cut-on fee is charged to defray the cost of servicing delinquent accounts. The present fee of \$5 during

working hours and \$10 during non-working hours has been increased to \$10 during working hours and \$15 during non-working hours.

Upon disconnection of service for non-payment, some meters are installed with valve covers and locks to prevent unauthorized use. In some instances, these devices have been destroyed. In the future when this occurs, the customer will be required to pay an additional \$20 for replacement of each device plus the amount of the delinquent bill before service will be reconnected.

The service charge presently in effect on returned checks is \$3. This fee has been increased to \$8 per check.

These increases are necessary because of customer default in payment and the increased cost of providing service after default has occurred.

Missing Children Elude Authorities In U.S.

The figures are imprecise, but the few known facts are appalling: the number of missing children is rising, thousands are murdered each year and no one is keeping track.

According to the July Reader's Digest, "The best estimates are that about a million American youngsters leave home each year, with 90 percent returning two weeks. Approximately 100,000 children are thus unaccounted for. Add another 25,000 to 100,000 stolen by divorced or separated parents, and the total becomes significant."

Because so many missing children do return home, police are usually unwilling to enter the case promptly. The FBI will not enter a case at all unless there is evidence of moving the child across state lines or a ransom note to indicate a kidnapping.

"When a stranger steals a child," the article continues, "anything can happen. The cruel truth is that a missing child," the article continues, "anything can happen. The cruel truth is that a missing child stands a fair chance of being murdered. Each year an estimated 2500 children in the United States disappear and later are found

murdered." In addition, there is a thriving traffic in child prostitution and child pornography, and it is believed that some of the missing children have been siphoned off for this market.

Once local police have exhausted all leads, there are few ways for suffering parents to continue their search. Verbal descriptions are of little use; police give low priority to teleprinted missing-child reports from other communities. In desperation, parents themselves and relatives of missing children have organized their own clearing houses and hot lines. Child Find, Inc., Box 277, New Paltz, N.Y. 12561, maintains a toll free number (800/431-5005) to be used by children looking for their parents or parents looking for their missing youngsters.

Another organization publishes The National Runaway/Missing Persons Report. It is published and distributed to some 22,000 agencies by SEARCH, 560 Sylvan Ave., Englewood Cliffs, N.J. (phone (201/567-4040).
