## We're Opposed to Mail Order Concerns Because—

They have never constituted a cent to furthering the interests of our town—

Every cent received by them from this community is a direct loss to our merchants—

In almost every case their prices can be met right here, without delay in receiving goods and the possibility of mistakes in filling orders.

But—

The natural human trait is to buy where goods are cheapest. Local pride is usually secondary in the game of life as played today.

Therefore

Mr. Merchant and Business Man, meet your competitors with their own weapons—advertising.

Advertise!

The local field is yours. All you need do is to avail yourself of the opportunity offered. An advertisement in this paper will carry your message into hundreds of homes in the community. It is the surest medium of killing your greatest competitor. A space this size won't cost much. Come in and see us about it.

## Books are wanted.

At the Sanatorium Books are Book Companions.

There is no place where a good book is more appreciated than at the State Sanatorium for the treatment of tuberculosis. There the patients have nothing to do but to get well and everything bringing cheer, a new vision or an uplifting thought into their lives is a direct aid in the process. To those who are not confined to their beds, reading is a wholesome entertainment and speeds many a heavy-footed moment on. Some of the patients learn there to read for their first time and eagerly take this opportunity to learn to read and write while they gain in weight and strength.

A good library at the Sanatorium would in no wise fail in the true mission of a library. Its educative, entertaining and inspiring offices would be entered into and appreciated. As a source of comfort, hope and light its influence would be as the wisdom of the sea.

This need of the sanatorium opens up a splendid opportunity to individuals, societies, clubs, orders and other organizations to make donations either in books, magazines, daily and weekly papers, or in other equipment for a good up-to-date reading room. Those having good books of fiction, of verse, biography or copies of the standard writers, that they have read, might as well pack them up and send to the Sanatorium instead of packing them away to become dust eaten and mouldy for lack of use and with age. Books have their seasons like other things. Don't wait till they have lost their savor and have become stale to send them. Let theirs be timely messages.
