

It is not given to many to be heroes, but everyone can be a useful citizen and that is always in order.

Between the great things we cannot do and the small things we will not do there is great danger of our doing nothing.

By the common consent of all moralists war is regarded as a sin against humanity, and it is equally true that the wages of sin is death.

If you cannot see the great improvements which have taken place in our town within the past two years you are blind. And when we say improvements we do not mean in any one particular, either. There have been enormous improvements made in the way of residence building and remodeling, there have been improvements in the way of added business hours, and above all there has been an improvement in the moral tone of the place. It has not been long since it was a common sight to see men disagreeably drunk on the streets, while now it is a very uncommon sight to see any man under the influence of liquor. And in every other way the town has greatly improved. A general wave of progressiveness and a feeling for higher morals appears to have taken hold of our people, and here as elsewhere public sentiment regulates public conduct. When public sentiment demands a higher moral life the result is always a better place, and when the public agrees that they live in the very best section of the country then improvement begins, and this infection spreads even to the stranger that is within your gate. We have the very best town and is situated in the very best section of the state and our own people have awakened to the fact. There is still a greater and better town coming. Are you aiding in the forward movement?

The spirit of Christmas! What is the spirit of Christmas? It is the generous spirit, the spirit of giving! Yes, but that is not all. There will be millions of gifts made between now and the new year, and they will not all express the Christmas spirit. Some will be made out of pockets of plenty and thus entail no personal service; some will be made under compulsion of supposed necessity. How many people give things at this time because they think they must? They must give to those who, they hope or fear, will give to them. It is almost unfortunate that giving and taking has become such a feature of our Christmas celebration because the mere gift is incapable of expressing the spirit of this occasion, and the occasion itself has become a burden to many because it has been so much abused. It is not by giving lavishly that we honor Christ whose birth we celebrate, but by sharing unselfishly every good thing we possess. This puts the best things of Christmas within reach of every human life and enables every human being however poor in goods to give generously of whatever else he has. We all have much. Is money denied us, then let us give what is better, a word to cheer, a smile to awaken hope, something out of our hearts' treasure. Who would not rather get a cordial message from a friend that would express his thought and appreciation, than to get a dollar trinket? What hereby to think that we cannot express an unselfish love at Christmas time except by lavish us of money.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proved Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & Co., Toledo, O.

Sold by Druggists, 75c. Take Hall's Family Pills for constipation.
