White Man With Black Liver.

The Liver is a blood purifier. It was thought at one time it was the seat of the passions. The trouble with most people is that their liver becomes black because of impurities in the blood due to bad physical states, causing Biliousness, Headache, Dizziness and constipation. Dr. King's New Pills will clean up the Liver, and give you new life. 25c. at your Drug-
gist. Adv.

District Meeting of the Womans' Missionary Society of the Warrenton District.

A meeting of the Womans' Missionary Society of the lower part of the Warrenton district was held in Murfreesboro April 13 and 14th.

The nine auxiliaries, in this part of the district, were well represented by forty-one delegates and visitors.

Revs. E. H. Davis, E. E. Rose, W. C. Merritt, R. H. Willis and B. B. Slaughter rendered valuable service.

Mr. Willis conducted devotional service Tuesday afternoon. Showing, by use of chart, the aim of Christian America to be—"The World for Christ in this Generation," noting five vital points, Pray, Study, Plan, Give and Serve.

At eight o'clock Tuesday evening Rev. E. H. Davis of Jackson preached a forceful missionary sermon, emphasizing the need of a living Christ in every phase and condition of life.

Wednesday morning our Secretary, Mrs. R. H. Willis gave her address, which was comprehensive and interesting. She so beautifully appealed to her co-laborers for a more earnest effort to accomplish greater things for the Master.

Mrs. Spiers of Weldon, in her quiet impressive manner, entertained the conference at different intervals both by paper and discussions, especially instructing us on the Social Service question and importance of reporting our work more definitely and at the proper time.

Mrs. Rhodes of Littleton College gave during the session two excellent papers, one, "The needs of Women," also discussing plans for Missionary Study Class, suggesting different methods to suit different conditions. Her last paper on "Womans' Service to the Church," illustrated by women bible characters, was to the point and opened our eyes to see opportunities in a new light.

Reports from different Auxiliaries and Bright Jewel Bands, and discussions of interest and importance along all lines of Missionary work cannot fail to inspire each individual to new resolutions which will no doubt ripen into a deeper consecration.

The entertainment given Wednesday evening by the Bright Jewel Band, under the leadership of Miss Ellen Vaughan, was very good and enjoyed by all. Little folks always appeal to our hearts as nothing else can.

The choir was not forgetful to impress us by the beautiful anthems and solos rendered that music is a part of God's service.

From beginning to end the conference was full of enthusiasm. All were impressed with the earnestness of our much loved secretary, Mr. Willis, who seems never to yield to fatigue. From place to place she accompanies our presiding elder, her faithful husband, helping and strengthening each other in everything pertaining to our Master's work.

Murfreesboro was generous in its hospitality and everyone present expressed themselves glad of the privilege of attending the District Meeting.

A Visitor.

SOUTHERN INVENTORS.

The following patents were just issued to Southern clients reported by D. Swift & Company, Patent Lawyers, Washington, D. C., who will furnish copies of any patent for ten cents a piece to our readers.

N. C. Hugh A. Barnard, Houstonville, paper bag; N. G. Gore, Vineland, nail holding attachment for hammers; John M. Manoss, Ellerbe, Gas engine attachment; Robt. C. Meadows, Poors Knob, Corn Mill.

S. C. Ernest U. Mack, Florence, Rotary Steam Engine; Chas. T. Mason, Sumter, Ignition dynamo.

Investigate Before Signing.

There is being circulated in St. Johns township a petition asking the County Commissioners to appoint a new man for the office of Road Supervisor, bringing serious charges against some of the present board, and as this petition is being signed by several good citizens without fully explaining the real nature of the petition, and being one of those fooled I take this opportunity to warn the public that this petition is gotten up purely through malice with the intent to injure the good name of one of the present members of the board who is giving the people satisfactory service. Myself and a number of others was led to believe there was a vacancy but later found that it was an effort to throw out Mr. T. J. Teaster, one of the boards very best and efficient men who has enjoyed the honor and esteem of the people of this township too long for a certain class to attempt to discredit his faithful work in building up our county roads. The good people of the township want no change as our present board is doing all we can reasonably expect. I ask that this petition be fully investigated before being signed.

L. T. EDWARDS.

\$450 in Prizes to Corn Club Winners.

West Raleigh.—T. E. Browne, in charge of the boy's corn club work in North Carolina, has just sent out vouchers to the winners in the 1914 corn club contest. The vouchers totaled \$450.00 which sum is the gift of the North Carolina Board of Agriculture to the lucky boys. There are ten districts in North Carolina, and to each one of them will go \$45.00 to the winners. The prizes are \$15, \$12.50, \$10, \$5, \$2.50. Dudley Hall, the champion of North Carolina, will receive a free scholarship to A. and M. College. There are numerous other local and county prizes which the winning boys will receive for their labors.

The agents state there is a growing interest among the boys in their search for the scientific facts regarding corn growing and other farming. The prizes, the workers say, help to stimulate rivalry, but are not the chief aim of the boys when they are working their crop. Another thing which the boys are doing besides replenishing their own coffers and enlarging their knowledge is teaching their fathers how the art of progressive farming is carried on. Many farmers are outclassed by their sons, and this fact makes the elders work harder to make good yields.

That this year will be a successful one is the prediction of Mr. Browne, who has watched the corn club work ever since it began in North Carolina. The crop will be a little late in getting started, but will have time enough to mature. The youths have their seed selected, and are ready to plant and begin cultivation. The membership is now climbing towards the 3,000 mark, and it is thought that it will reach the coveted goal before fall.—Raleigh Times.

Some Forms of Rheumatism Curable.

Rheumatism is a disease characterized by pains in the joints and in the muscles. The most common forms are: Acute and Chronic Rheumatism, Rheumatism Headache, Sciatic Rheumatism and Lumbago. All of these types can be helped absolutely by applying some good liniment that penetrates. An application of Sloan's Liniment, two or three times a day to the affected part will give instant relief. Sloan's Liniment is good for pain, and especially Rheumatic Pain, because it penetrates to the seat of trouble, soothes the afflicted part and draws the pain. "Sloan's Liniment is all medicine." Get a bottle now. Keep it handy in case of emergency Adv.

In most families there is little agitation over what father is going to wear this spring.

Urged to Send Delegates.

The Baraca and Philathea classes of our town and county are invited and urged to send delegates to the Fifth annual Baraca-Philathea State Convention to be held in Raleigh, beginning Thursday evening, April 22nd, and closing Sunday evening, April 25th. Every chartered class is entitled to two voting delegates each and all others who wish to do so may attend. The railroads will issue round trip tickets, and several hundred good homes are being reserved at \$1.00 each per day, two in a room. All names, both of those who want homes reserved and those who will stop with friends, should be sent at once to Miss Flossie A. Byrd, General Secretary, Greensboro, N. C.

Already nearly 400 have enrolled, and this number will doubtless be more than double within the next few days, not including the hundreds of visitors who will spend Sunday of the Convention in the Capital City.

Let Ahoskie and Hertford County be well represented in this great annual gathering of young men and women of the organized Bible classes of the State. The program and all attractions of the Convention will be uplifting and inspiring.

From Baraca-Philathea Headquarters. Greensboro, N. C.

When Peace Comes.

When the dove of peace flutters over Europe, and tranquility again spreads its wing over that unhappy land, an era of tremendous prosperity will be opened up to the United States.

The demand for our products will be greater than our power to supply.

Every conceivable industry will be taxed to its utmost to meet the insistent cry from abroad.

Every farmer, every manufacturer, every laborer will be called upon to work unceasingly that the ever increasing demand for products may be met.

And Europe pays with gold.

Just what condition are we, of this community, in to reap our full share of this coming influx of foreign gold?

Are our farmers utilizing every foot of ground, that the greatest of all crops may be produced?

Are our manufacturers laying their plans for an increased output of their wares?

Are we, as a people, alive to the glorious opportunity that approaches?

If not, the time is opportune for us to be up and doing.

Work will accomplish many things.

But opportunity and procrastination never clasp hands.

Superior Court.

The April term of the Superior Court for Hertford County convened on Tuesday morning April 13th., with Judge Garland S. Ferguson presiding. The following grandjurors were drawn: J. M. Eley, foreman, W. E. Jordan, J. L. Snipes, J. C. Jenkins, C. E. Lowe, Walter Powell, M. I. King, R. A. Majette, D. L. Minton, Daniel Lowe, D. H. Howell, J. H. Outland, A. S. Holloman, E. N. Brickie, W. L. Matthews, Geo. Jenkins, W. B. Edwards and R. L. Morris.

The criminal docket was unusually small, there being only two cases tried. John Harrell was tried on a charge of larceny, and upon conviction judgement was suspended upon payment of costs and a fine of \$29.00. Tena Myrick and Fannie Vinson were indicted for an affray. The case was submitted for a simple assault and judgment was suspended upon payment of the cost.

Lottie Myrick vs Eugene Myrick was an uncontested divorce case and resulted in judgment for (Concluded on page 4.)

Great Municipal Improvements.

More North Carolina Towns Installing Water Works and Sewer Systems Than Ever Before.

New water works and sewer systems are blooming in North Carolina today. Little towns and villages are installing water and sewers now, whereas, a few years ago, only the large towns had such things. Now our larger towns are erecting magnificent, permanent plants yielding only the purest kind of water and that in abundance.

The conservative old town of Edenton is waking up. At a recent meeting of her city council an ordinance was passed to enforce the use of sanitary privies. The ordinance demanded that the privies be made according to the specifications recommended by the State Board of Health and that they be installed before fly time. A wise ordinance for this little town, but if she would have them in before fly-time, she should be up and doing.

Durham proposes to run no risk in regard to her city water supply. She has been using filtered water from the Eno River but owing to the fact that this river receives drainage from Hillsboro, her plan is to change her source to Flat River. Flat River is remarkable free from sources of pollution. It affords a watershed that will be ample for the needs of Durham for 100 years to come.

The new plan calls for a raw water reservoir of 40 million gallons capacity to be located at the present site of a smaller artificial lake at the Country Club. This will serve as an emergency supply, a settling reservoir, and will add materially to the beauty of the Country Club.

Durham has voted \$500,000 bonds to effect these improvements. Mr. Gilbert C. White is the engineer in charge.

Morehead City is rapidly pushing forward the work of installing one of the most complete sewer systems in the State. According to the engineers in charge, the system is already 40% complete by July 1st. Such a sewer system with the abolition of the present privies will make Morehead one of the healthiest little towns in the State.

Washington is another North Carolina town that proposes to have a pure water supply. She has bought the old privately owned plant which furnished the city water from deep wells near the center of town and which brought the owners one or more law suits on account of its polluted water. Perhaps the most modern filtration plant in the State has been installed about a mile out of town.

The city supply now comes from Tranter's Creek instead of from wells in the heart of town in close proximity to human habitations, privies, sewers, stables and other sources of pollution. Washington is also installing a rather complete sewer system. This in turn will abolish a great number of old open privies.

Southport has recently issued \$40,000 bonds for the installation of water works and a sewer system. For her water supply she proposes to sink a suitable number of deep wells as there is no surface water available. These proposed plans have just been submitted to the State Board of Health. It is probable that these plans or similar plans with slight alterations will be approved by the Board.

There are known to be about twelve or fifteen towns in the State that are actively considering the installation of water works, sewer systems and sewage disposal plants, or improvements in existing water and sewer installation.

Young man, if you ever grow up to be president you may learn something of the trials and perplexities of our own Woodrow in these balcyon days of neutrality.
