If you are feeling peevish and out of sorts, take a brisk walk. You will feel better. If your brain is overburdened and your mind is sluggish, get in motion again, for your legs are good doctors. A brisk walk exercises the dormant muscles, stimulates the circulation of blood and brightens the mind. It is good for good people and better for the bad ones. It is all to the good.

Do you know that it is impossible to contract malaria without first being bitten by a mosquito? It's a fact, for mosquitoes alone spread the malarial germ. The mosquito gets in its deadly work in the dark hours of night, when the weather is hot and the windows are open and the people longing for a little fresh air. Hundreds of thousands of lives might be saved if more attention were paid to the screening of windows and doors, and especially in this case where little children are growing up. The time for the mosquito is at hand—put up your screens and save your children.

The gathering of the great inventors and scientists of the country together and the formation of a board to cooperate with the navy department at Washington causes one to stop and ponder the "why" of this sudden activity on the part of the secretary of the navy.

Is the country in danger of invasion by a foreign foe?

Is the government in possession of secret information which impels this sudden gathering of the brains of the nation in the aid of national defense?

It is a question which we can not answer and which of course the government will not answer, yet one can not suppress the thought that beneath the surface calm a volcano lies ready to burst.

No candidates for the nomination of Lieutenant Governor by the Republicans have been openly mentioned by the leaders of that party for the reason that there are no chances even remote of election and then they only talk about the big places—for as everybody knows "talk is cheap"—so they only talk of the big places. But the Democrats have some big timber in the political woods from which to make their choice and the Hon. O. Max Gardner, of Shelby, has already announced himself for Lieutenant Governor. He is young in years but old in experience. He has served several terms in the State Senate and has been president pro tem of that body. He understands every detail of that body and would make a splendid Lieutenant Governor, as a large part of his duties would be to preside over the deliberations of that body by virtue of the office which carries with it the Presidency of the Senate. This is of importance to the State as he has the appointment of the various committees. The Wilmington Star referring to Gardner says he is "young and stalwart, possesses many elements of a progressive, though far from radical."

Hon. H. Neill Pharr, of Clayton, has also announced himself for this office. He too has had large experience in the State Senate, been President pro tem of that body. He is well fitted for the place.

At this writing it is hard to make a forecast of the outcome in this race but Gardner is going to be a hard man to beat. He is a fighter by nature but he fights fairly and will not strike below the belt. He is going to appeal wonderfully strong to the young Democracy.

**Two Raleigh Young Men Drowned At Ocean View.**

Raleigh, N. C., July 25.—News came from Ocean View that two Raleigh young men spending Sunday there were drowned in the surf this morning. They were Max H. Jourdan, jeweler and watchmaker, and George Hollingsworth, clerk in the Galloway Drug Store, on Fayetteville Street. Mr. Jourdan has for sometime been in the employ of the "Uncle Myers" jewelry store, a pawnshop on Wilmington street. Both young men were highly esteemed by all who knew them. The remains of both will be brought to Raleigh Mr. Jourdan has no relatives here. He has an uncle in Durham and his remains may be forwarded there for interment.

The two young men went from Raleigh to Norfolk and Ocean View Saturday night to spend Sunday. Lloyd, of the department, who was a member of the Ocean View party, and obtained from Chief Farmer permission to stay over in Norfolk longer in order to accompany the remains of his two friends home. The tobacco growers are busy in their tobacco now. They say it is ripening up very fast. We think the tobacco crop is fairly good and hope the price will be good. We think it a good thing that the warehouse in Ahooskie will be open for business this time. The farmers will not have to pay the freight they would to a more distant market. Any farmers in this section can go and come in one day, carry a lunch from home and save the hotel bill. Boys try the Ahooskie market one time any way.
