FIVE TRUSTEES NOW IN RACE

Convention of Monday Night Nominated Three Candi- dates for High School Trus- tees, W. L. Curtis Being Nominee for Two-Year Term—Barbee Attacks Old Board.

The voters of Ahoskie High School District met again at the moving picture hall Monday night, and nominated three candidates for the position of trustee of the Ahoskie High School. Only a small crowd was present, and it was half past eight o'clock before enough voters had assembled to call the meeting. However, when the meeting was called to order, W. W. Rogers was unanimously elected chairman of the meeting. He was placed in nomination by E. M. Wooten. J. H. Robertson was chosen secretary, being the nominee of Dr. J. H. Mitchell.

Chairman Rogers in stating the object of the convention, said that the meeting had been called to nominate a candidate for the place made vacant by the ruling of the Attorney-General that women could not hold elective offices, and that in addition to a nominee for a two-year term, there were two other candidates to be nominated for six year terms. F. D. Flythe responded immediately by placing in nomination for the two six-year term candidates, Dr. P. H. Mitchell and W. W. Rogers. A. E. Garrett then placed the name of W. L. Curtis before the convention as candidate for the two-year term.

Right at this stage of the meeting A. T. Willoughby addressed the chair and stated that the proceedings of the convention were out of order, and that the meeting was called to nominate only one candidate to fill the place made vacant by the ineligibility of Mrs. C. C. Hoggard. His remarks were ruled out of order by the chair. J. R. Garrett and J. Roy Parker also addressed the chair with similar remarks, expressing the belief that the meeting was called to nominate only one candidate, two having been regularly nominated at the regular convention. C. C. Hoggard then placed the name of J. Roy Parker before the convention for the two-year term, and the nominations were ruled closed.

At the conclusion of the balloting, the count stood Rogers 21, Mitchell 22, Curtis 22, and Parker 15, the former three being named as candidates of the body assembled. With no other business before the meeting, the body adjourned.

Barbee Makes Remarks.

Ere the entire crowd had dispersed, Chairman Rogers announced at the downstairs entrance that Professor Barbee had a few remarks to make relative to the school, and a small crowd assembled again to listen to the speech of Professor Barbee.

The purpose and intent of the speech was a clarion call to Ahoskie's citizens to awaken themselves and overthrow the regularly nominated candidates for six-year term trustees, namely J. A. Williams and M. D. Gatling. Professor Barbee also attacked Dr. C. G. Powell for the manner in which he had conducted the school, and accused him of having "manned" the remaining members of the Board. Before he closed he strongly urged the voters to busy themselves and help out the members of the old board, who are to be given a trial at the ballot box Monday.

Chairman Rogers spoke in very commendatory terms of Professor Barbee, and was followed by W. R. Johnson, who addressed his remarks directly to Barbee, whom he commended for the manner in which he had handled the school. Mr. Johnson, however, stated that his remarks had no bearing whatever on the action of the meeting which had overturned the former convention. A. E. Garrett also commended Professor Barbee. With no further ado the meeting adjourned.

CONFEDERATE REUNION AT WASHINGTON

Confederate Veterans Will Hold Their Annual Reunion in the National Capital June 4th to 8th.

The Confederate Veterans will meet at Washington June 4th to 8th, inclusive, to celebrate their twenty seventh annual reunion. This is the first time the Reunion has been held outside of the geographical limits of Dixieland. At this Reunion Washington expects to outdo itself, for Washington is a city where entertaining has become an art. The visiting heroes of the valiant Southland are assured hospitality that will remain in their minds as a pleasing memory as long as they and their friends live. Blue will welcome Gray, and instead of being a strictly Southern affair, it will become a national event, and one of National significance.

Washington is always beautiful, and in its vernal glory and beauty it is thrice beautiful, and every Confederate Veteran and his friends should not let this opportunity pass to visit the first city in the land, and one of the wonder cities of the world.

Washington will welcome the "Johnnies" with a hospitality almost Arabian, everything for their pleasure, comfort and convenience will be provided. The Great Plaza fronting the Union Station, practically under the shadow of the Golden Dome will be converted into a camp of a thousand tents.

Trolley lines, automobiles and railroads will carry Veterans and their friends to the many Civil War battlefields, and to Mount Vernon, where are located the home and tomb of George Washington.

Washington is pervaded today with the spirit of war—preparation for the great struggle we are entering into with the warring nations of Europe makes the city doubly interesting.

The rebel yell, "Dixie" and the "Star Spangled Banner" will blend along Pennsylvania Avenue, and awaken the echoes, arouse the patriotism as nothing else could.

The railroads are showing their patriotism and interest in the memorable event by giving the lowest rates ever offered, and it is believed that this will be the means of bringing a large attendance.

In addition to this event, others of importance will be held the same week. The Sons of Confederate Veterans, the Daughters of the Confederacy, and the Confederate Southern Memorial Association, besides Regimental reunions, and the social functions which always are elaborate features of the Reunion.

A visit to Washington under such circumstances will be both interesting and instructive, and especially so coming at such a time when our country is preparing for war.

Notice of Sale for Taxes.

To be sold Saturday, May 12;
1917, at Mayor's office.

How's This

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine.

Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty-five years and has become known as the most reliable remedy for catarrh. Hall's Catarrh Medicine acts thru the Blood on the Mucous surfaces, expelling the Poison from the Blood and healing the diseased portions.

After you have taken Hall's Catarrh Medicine for a short time you will see a great improvement in your general health. Start taking Hall's Catarrh Medicine at once and get rid of catarrh. Send for testimonials, free.

F. J. CHENEY & CO., Toledo, Ohio.
Sold by all Druggists, 75c. Adv.

Rheumatism

If you are troubled with chronic muscular rheumatism give Chamberlain's Liniment a trial. The relief from pain which it affords is alone worth many times its cost. Obtainable everywhere. Adv.

WINTON WAVELETTES

Quite a crowd went from here to Murfreesboro Sunday afternoon to hear Rev. K. D. Stukenbroke, pastor of the Baptist Church at Jackson, deliver an address at Chowan College on "Religious Conditions in Germany." Mr. Stukenbroke is a native of Germany and he made a most interesting and most instructive talk, and impressed on his hearers the great need of a change in the government of Germany. We who live "in the land of the free and the home of the brave" cannot realize the awful conditions that exist in Germany.

Mr. J. P. Mitchell went to Norfolk Sunday afternoon to have an operation performed for mastoiditis. Mrs. C. S. Vann and daughter, Miss Myra Vann, were guests in the home of Mrs. Martha Vann the past week.

Mr. and Mrs. W. H. Williams, of Suffolk, spent Friday and Saturday with Mr. and Mrs. J. H. Lee.

Mr. and Mrs. Luther Hale and child, of New York City, will arrive Tuesday to visit their parents, Mr. Mrs. D. D. Hale.

The W. M. S. of the Winton Baptist Church observed last week as Week of Prayer and thank-offering for Home Missions.

Several members of the Missionary Societies of the Baptist Churches of Winton will attend the Hertford County Union, which meets at Mt. Tabor Tuesday, May 1st.

Miss Lillian Shaw, who has been visiting in Suffolk and Raleigh, returned home Monday.

Miss Ruth Davenport, who has been teaching in the high school at Rich Square during the past session, returned home Friday to spend the summer vacation.

Mrs. M. R. Herring and Ruth Vann were in Norfolk Tuesday and Wednesday shopping.

Graves Vann, of A. and E. College, has enlisted in the U. S. A. and will go with the Coast Artillery.

Willie Britton went to Norfolk last week to enlist in the U. S. A.

Mr. Charlie Parker, of McArae, Ga., is visiting his brother, Mr. A. I. Parker.

Mr. J. S. Shaw, who has been at Southern Pines for the past six weeks, returned home Friday. Mr. Shaw is very much improved.

Mrs. A. J. Pearce spent Tuesday in Norfolk.

Mr. and Mrs. C. Wallace Jones spent Monday in Suffolk. They made the trip in their car.

Mrs. E. L. Banks went to Suffolk Monday. Mr. Banks went on to Norfolk to bring back a car load of Ford automobiles.

Mrs. Alfred Eason and baby, Irene Clark, are visiting Mr. and Mrs. J. N. Clark.

Mr. and Mrs. Robert Lowe went to Norfolk Monday.

Mr. J. R. Vann spent Sunday in Norfolk.

A GOOD MARKET FOR GRAPES

Growers of Scuppernon Grapes will be gratified at the news that Garrett & Company of Norfolk, Va. will be in the market for choice grapes in large quantities.

While the Garrett plant will be moved in the early fall from Norfolk to New York City, they will continue to receive grapes for pressing at Wilmington, Plymouth, Tokay, Medoc and other points.

Their advice to Scuppernon Grape growers is to fertilize the vineyards liberally and keep the vines in the acme of perfection for a big yield and a good profit.

Scuppernon grapes in the past have yielded big returns to Southern growers and the present outlook is that their use will be very largely extended.

The Quinine That Does Not Affect The Head
Because of its tonic and invigorating effect. LAXATIVE NACOMO QUININE is better than ordinary Quinine and does not cause nervousness or ringing in head. Remember the full name and look for the signature of E. W. GROVE.

HOW TO SELECT FOODS

The following suggestions on getting the most food for one's money are from United States Department of Agriculture Farmers' Bulletin 808, "How to Select Foods."

Use cereals (flour, meal, cereal breakfast foods, etc.) freely, taking pains to vary the kind used from day to day if necessary to keep people from tiring of them.

Remember that a quart of whole milk a day for each child, to be used as a beverage and in cookery, is not too much.

Plan carefully in both buying and serving. Do not be ashamed to plan closely. Thrift in food means providing enough food, neither too little nor too much.

Notice carefully how of such staples as flour, sugar, milk, cooking fat, etc., is used each week for a month, and see if there are any ways of cutting down the quantity needed.

Buy nonperishable materials in quantities if better prices can be secured and there is a good storage place in the home. Neighbors can sometimes club together to get lower rates.

Estimate carefully how much of any material will be needed before laying in a supply, then see that none is wasted by careless handling.

Try to make the dishes served of such size that there will be enough to satisfy the appetite of the family and no unnecessary table and plate waste.

Do not be above noticing whether anything usable is thrown away with the garbage, which always shows how thriftily food is used in a house hold.

Many inexpensive materials can be made attractive, and the diet can be pleasantly varied by a wise use of different flavorings.

"Finicky" tastes in food often prevent the use of many valuable materials which might be the means of saving money.

Good food habits are an important part of personal hygiene and thrift. Children get such habits by suitable amounts of suitable foods served to them and then being expected to eat what is set before them.

True economy lies not only in buying wisely but also in making the fullest possible use of what is bought.

THIS STATE MAKES RECORD

North Carolina has been one of the six states to get honorable mention for the record she made in the sale of Red Cross Christmas seals.

According to information received from Charles M. DeForest, sales manager of the National Tuberculosis Association, North Carolina came in for second place in her class of States having a population of between a million and a quarter to two million four hundred population.

Her per capita sale was .999, not quite one seal for each individual. The states winning first prizes in their respective classes were Wyoming, Minnesota and New York.

Those winning second prizes were North Carolina, Connecticut and Wisconsin. The towns getting the largest per capita sales were Hershey, Pa., with a sale of 78.6 per capita; Thornburg, Pa., 30.7; Holtville, Cal., 29.2; and Broadview, Mont., 24.8.

In regard to North Carolina's sale record, a letter to Dr. L. B. McBrayer from Mr. DeForest says: "I take great pleasure in informing you that your State has attained the honor of second place in the sale of Red Cross Seals throughout the United States in Class B for cities and towns with populations of 1,250,000 to 2,400,000. Your per capita sale, according to our records, is .999."

We congratulate you and the citizens of your community on this splendid record, and trust that next year you will attain to first place, and win a pennant. We feel that it is a real distinction for any state in the United States to place its name on the health map of the country by selling seals in so conspicuous a manner as you have done.

ANTI-TYPHOID CAM- PAIGNS THIS SUMMER

State Board of Health Makes Changes in Work—Physicians in County Will Do the Work.

While the State Board of Health is planning to conduct twenty county anti-typhoid campaigns this summer, it announced yesterday that there would be a slight change in the Board's plan for conducting these campaigns during the summer months. Instead of sending physicians into the country to do this work as has been the plan of the Board heretofore, the physicians of the county will be given the work at a cost to the county to be governed by the expense experience incurred in other counties in which the State Board of Health has previously done this work.

Only the cost of administering the vaccine and local newspaper advertising will be met by the county, while the Board will furnish fee all vaccine or sufficient quantity for twenty county campaigns, advertising placards and posters, record blanks, and free health literature. It will furnish also the services of an experienced organizer who will direct the organization and conduct the advertising preparatory to beginning the work at the appointed time.

The Board makes the further announcement that the first twenty counties to arrange with their physicians as to this work will be the first counties accepted. The State Laboratory of Hygiene promises to furnish free vaccine for only twenty county campaigns and for this reason only this number will be accepted. The Board will still have supervision of the work, as this will be necessary from the Board's experience to insure the keeping of records as the uniformity of the records that they may be of service in referred matters.

The questions for the county to settle, advises a health bulletin, is not whether or not the county can afford to give it to its people free, but how soon can it arrange to get it. Counties which put on campaigns against typhoid fever in 1915, with a result that only 13 per cent of the people took the treatment, reduced the typhoid death rate 25 per cent or 43 deaths. The reports for the counties doing this work in 1916 show a still further decrease of about 30 per cent. The nearer summer and fly time approaches, the more insistent becomes the question of typhoid prevention.

FACTS ABOUT PORK RAISING

Bacon is a valuable financial crop; it may be produced cheaply and disposed of easily.

North Carolina does not produce enough for its own use. All of its meat products should be increased.

One of the best ways to do this, now, is that every sow in the State be bred for a fall litter of pigs.

This means 200 pounds of meat per pig from each litter of six pigs; 1,200 pounds of meat will provide the meat for five families.

But when the sow is bred, feed should be provided. Grazing crops pasturage is necessary in this.

Pastures are ready generally about May 1. Fall fattening crops should be ready after the pastures have been grazed.

Peanuts and soybeans are fine on the coast, and soybeans, alone, are valuable in the Piedmont section.

Many other crops are valuable, as cowpeas, chufas, velvet beans, and sweet potatoes.

But information secured at the branch stations indicates that peanuts and soy beans are the most valuable fall and early winter grazing crops.

Cowpeas afford about one-half as much grazing per acre as soybeans.

When these crops are planted May 1st, the soybeans are ready for grazing during the first week in September.

The peanuts follow about a month or so later.

WHO SUPPORTS THE STATE?

According to University News Letter North Carolina is One of the Most Inexpensively Operated States in the Union—No Reason for Grumbling at Excessive or Burdensome Taxes.

The average tax payer in North Carolina demands a great deal but pays very little in comparison with the benefits he derives from living in the state, as was shown by A. O. Joines, of Alleghany county, at the regular meeting of the North Carolina Club Monday night.

"The greatest source of revenue in the state," said Mr. Joines, "is the general property tax. Who pays it? Two-thirds of the whites of all ages own no property and pay no taxes, unless it be poll tax; two-fifths of the whites who pay property taxes pay on less than \$500, or less than \$2.36 apiece for state support; three-fifths of all the white property owners pay on less than \$1000 or less than \$4.76 per year; and, most amazing of all, six per cent of the white tax payers of the state own more than half of all the real and personal property, and therefore pay more than half of all the general property taxes that reach the state treasury. The other tax revenues come from poll taxes, special taxes and business taxes.

The Tax Payer's Dollar.

"But what goes with the taxpayer's dollar? It is expended as follows: Public education and libraries 33.2 per cent; charities, hospitals, and corrections 18.3 per cent; pensions and the Confederate home 10.9 per cent; public buildings and equipment 9.4 per cent; interest on funded and floating debt 8.3 per cent; the civil establishment 6.6 per cent; conservation of natural resources 5.2 per cent; protection of persons and property 4.4 per cent; conservation of health 2.4 per cent; incidental .7 per cent; educational recreation .12 per cent; and public high ways .10 per cent.

A glance at this list will convince the dullest tax payer that the taxes he pays are spent directly for the benefit of his home and family. The schools educate his children, the courts protect him from violence and fraud; the afflicted and unfortunate members of his home circle are being cared for at Morganton or Raleigh; the state board of health is busy the whole state over fighting preventable disease and postponable death.

Cheap Government.

"Nor is this a wasteful, extravagant state government because only 6-2-3 cents of every dollar in the state treasury went to pay the men who carry out the will of the people, while 93-1-3 cents were devoted to creating better opportunities and greater safety for the people of the state. The operating cost of the state government in North Carolina in 1914 was the smallest in the union, or only 14 cents per inhabitant.

"No state in the union is operated more inexpensively than North Carolina. No state government returns to the people larger benefits for the taxes they pay. The benefits have been small because the state revenues have been small; and the state revenues have been small because the average tax payer's notions of taxation have been small. Only recently have we begun to realize this fact and to vote more liberal appropriations. The legislature of 1917 has just written the most hopeful chapter in the history of North Carolina in a hundred years."

RUB-MY-TISM

Will cure your Rheumatism Neuralgia, Headaches, Cramps, Colic, Sprains, Bruises, Cuts and Burns, Old Sores, Stings of Insects Etc. Antiseptic Anodyne, used internally and externally. Price 25c.
