Buy a Liberty Bond and pay your subscription—two things you should do.

The coal situation is not at all promising in Ahsokie; hard coal heaters have hard sledding ahead of them.

Mr. N. W. Britton, of Winton, has been appointed Food Administrator of Hertford County.

Did you ever think of it? Neither the church for which the town was named nor the Ahsokie Graded School building is situated within the corporate limits of the town of Ahsokie.

The drafted boys were given a good send-off here last Friday morning, and they deserve every kindness and remembrance shown them.

On every hand and from all good sources business prognosticators speak of Ahsokie as the liveliest and most promising town in the whole of Northeastern North Carolina.

What has become of the water-works and sewerage system for Ahsokie? Was it talked to death? Or, has it died for lack of support?

Catarrrh Cannot be Cured. With local applications, as they cannot reach the seat of the disease. Catarrrh is a local disease, greatly influenced by constitutional conditions.

OVERTON-HUFF

Mr. James Elwood Overton, a highly esteemed young man of Ahsokie, and Miss Martha Maude Huff, daughter of Mr. and Mrs. J. C. Huff of Soudan, Va., were quietly married in an Oxford, N. C., hotel, Monday afternoon, October 8.

Mr. Overton has a wide circle of admiring friends, both in her late town and community, and also in other states, where she attended school and since has taught.

Mr. Overton is a native of Hertford County and Ahsokie. He is a young man possessed of fine business qualities, happily blended with a genial disposition.

Mr. and Mrs. Overton arrived in Ahsokie Wednesday and great home at the Manhattan Hotel.

In Loving Memory

In love and remembrance of Charlie W. Carter who was killed by the Virginian Railway train at Suffolk, Va., on Sept. 8, 1917.

His remains were brought home and laid to rest in the family burying ground, near Como, North Carolina.

He was thought well of by all who knew him. He had a host of friends at Victoria, Va., which was his home while on the railroad.

The floral decorations were many and beautiful. He leaves to mourn their loss a mother, father, and one brother, L. J. Carter, of Como, N. C., and one sister, Mrs. Tom Pritchard of Port Norfolk, Va.

Charlie was very dutiful to his parents and especially to his mother. He never failed to write to her twice a month and would send her a box of candy or something for her comfort.

The writer knows this young man well, and can't speak too highly of him. It was a great shock to him when he received the telegram, stating Charlie was dead.

"Weep not for death The fount of tears sealed; Who knows how bright the inward light To those closed eyes revealed? Who knows what holy love may fill The heart that seems so cold and still."

The Quinine That Does Not Affect the Head Because of its tonic and laxative effect. LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness or ringing in head.

BE CAREFUL LESSON FOR HOUSEKEEPERS

DO YOU DO YOUR PART TO PREVENT ACCIDENTS IN THE HOME.

Some Suggestions Which Will Aid Housekeepers to Acquire the Be Careful Habit.

In the observance of Fire Prevention Day, October 9, the State Insurance Department called especial attention to the part which can be played by the housekeepers of the State.

You housekeepers also should learn the Be Careful lesson. You know what untold misery and suffering are caused by accidents in the industrial world.

Every year thousands of women and children are killed and injured in their own homes as the result of carelessness.

NEVER use coal oil to start a fire in the stove. You invite disaster every time you do, for it is liable to explode and scatter the blazing oil.

NEVER let children play around a bonfire. They love to venture close to the blaze and a sudden gust of wind may blow their dress into the flames.

NEVER neglect to pick up a match you have dropped on the floor. Many a fatal fire has been caused by stepping on a match head.

NEVER neglect to attend promptly to an apparently trivial injury. A tiny scratch often becomes infected, causing blood poisoning.

NEVER set a lighted candle or lamp near a curtain. The wind may blow the drapery against the flame.

NEVER neglect to attend promptly to an apparently trivial injury. A tiny scratch often becomes infected, causing blood poisoning.

NEVER take an unnecessary chance. Remember the A. B. C. of Safety First is always Be Careful.

MUCH INTEREST WAS TAKEN IN MEETING AT WILMINGTON

Of interest and benefit to electrical contractors, electrical inspectors and all men in the electrical industry in the State was the electrical institute held at Wilmington, August 18 and 19, under the direction of the State Insurance Department.

The purpose of the institutes was to discuss fire prevention from the standpoint of electricians and firemen, and kindred subjects for the good of the property owners and citizens of the State.

Fire chiefs and city officials from practically every city and town entered into discussions on subjects pertaining to the proper methods of fighting and preventing fire.

Institutes of this nature will be conducted from time to time in the future under the direction of the State Insurance Department.

During these institutes held at Wilmington the Insurance Department's Fire Prevention movie films "The Lesson of the Flames" and "An Unbeliever Convinced" were exhibited free at a local theatre and were viewed by those in attendance upon the institutes and a great many Wilmington people.

Whenever You Need a General Tonic Take Grove's.

The Old Standard Grove's Tasteless Chilli Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON.

Says Phosphates Make Beautiful Women and Strong, Healthy, Vigorous, Robust Men!

Physicians all over the world are prescribing phosphates to build up run down enemic conditions and those who have treated their patients with Argo-Phosphate are changing thin, enemic women with toneless tissues, flabby flesh, into the most beautiful rosy cheeked and plump round formed women imaginable.

Atlanta, Ga. Dr. Jacobson said in a recent interview that 90 per cent of enemics comes from nervous breakdown which can only be corrected by supplying the necessary phosphates to the nervous system that is lacking in the food you eat.

SPECIAL NOTICE. The Argo-Phosphate recommended by Dr. F. H. Jacobson contains phosphates such as are prescribed by leading physicians throughout the world, and it will be found the most effective form of treating patients with Nervous Dyspepsia, Stomach troubles, Brain Fog, and Nervous Prostration.
