DOUBTS IF SHE'D

"Were it not for Mantone feel that I could not have lived mush longer," writes Mrs. Eli-zabeth Riggsbee, church worker, member of the Daughters of the Confederacy and well known lady of this State. Her home is in Bynum.

Before taking Mantone Mrs. Riggbee suffered terribly for 16 months. "My blood was Miss Amanda Britton. Mr. J Leon Alston has re-turned home after spending the a complication of liver, kidney and nerve trouble, also a severe case of intestinal indigestion. My sleep was broken and did not rest me. I fell off in weight from 212 to 142 pounds. I had headaches, backaches and high blood pres tended the opera "King Hal" given at Windsor Tuesday and Thursday nights. ed.

"I learned what Mantone did for a friend and took the full treatment. Headache and backache have left me, my digestion is better, numbness has dissappeared, my nerves are stronger and I sleep well. I never before praised any medi-cine but Mantone has done all this for me and I thankfully offer my story for the benefit of others who suffer and whom I am sure Mantone will help.'

IN WAR WORK

PRESIDENT'S WIDOW

Mrs. Thomas J. Preston, Jr. (for merly Mrs. Grover Cleveland), who was recently elected a member of the Executive Committee of the National Security League, the first woman to be so honored, has joined the execu-tive staff of the league as secretary of the Committee on Patriotism Through Education, through which the league is promoting a campaign throughout the country to awaken the people to a realization of the true

meanings of the war and the necessity for its efficient and aggressive prosecu-

Mrs. Preston is at her desk in the new offices of the Security Lengue, 19 West Forty-fourth street, New York city, daily, conducting the voluminous correspondence connected with the work of her committee, which now ex-tends into every state in the Union.

In accepting the secretaryship, Mrs. Preston wrote Dr. Robert M. McElroy : "I am happy in accepting this oppor-tunity to work with the league. I can think of no way in which I could more surely contribute my share to the present needs of our country than by join-ing in the very important work which your bureau has undertaken."

JUNGLE LAW.

(Contributed by ROBERT HER-RICK to the National Security League's campaign of Patriotism Through Education.)

Returning from Europe, cursed with war. I was more convinced than of anything else in life that what is being slowly settled in that grim trench land over there DOES mean something to us more, oh, so much more than money or legal rights or sympathy for bleeding humanity. Not that I am especially apprehensive of a raid on these United States, the crumbling of our skyscrapers, with the ex-action of colossal indemnities. That, too, of course, might happen if German arms were triumphant, if the pax Germanica were imposed upon a aten world.

But that is not to me the worst. To me the German peril does not lie so much in her big guns, her submarines her "Prussianized war machine." It lies in herself, in her image of the world. If Germany could win even a partial victory under her monstrous creed of applied materialism, illuminated us it has been by every sort of cynical crime, with its reasoned defiance of contract, its principle of "indispensa-ble severities," its military logic, etc., the all the world-the jungle law! In order to survive we must all accept this law of the jungle. And of all the prostrate peoples of the world forced to accept the victor's new version of the ancient commandments proud Amenica would be the first. We cannot resist the fascination of success. So the German ideal, the German tyranny over the individual, the German morality-one rule for you and me as individus. and another atterly irresponsible rule when we get togeth-er as a state-would be imitated by us more than the German thoroughness in civil and military organization.

FOR PHYSICAL REGENERATIO Started by National Security League Through Committee Headed by Walter Camp.

Impressed by the fact that 29 per cent, of the young men called to the colors in the draft are being rejected for physical disability, the National Security League has started a nation-wide movement to promote the phys-ical welfare of the youth of the land through the organization by communi-ties of branches of a Committee on Physical Reserve, of which Walter Camp, veteran trainer of athletes, is chairman. In answer to a letter se by the league to the mayors of all the cities in the country of over 5,000 population asking them to appoint com-mittees to co-operate with Mr. Camp, 200 committees in 30 states have al-ready been appointed to carry out the idea. Associated with Mr. Camp on the Committee on Physical Reserve are William G. Anderson, member of the Advisory Committee of Yale Uni-versity Gymnasium, and Joseph E. Raycroft, member of the War and Navy Departments Commission on Training Camp Activities.

"Economic Disaster." In discussing this new effort of the Security League, S. Stanwood Menken, president of the league, said : "The National Security League has

taken up this work because the country cannot afford without serious eco nomic disaster to less the benefit of the service of nearly one-third of the men who are drafted for military duty because of physical unfitness and whose places must be taken by those who have dependents. The draft fig-ures show that 29 per cent, of the men are physically unfit. The work is necessary, as, with the strain upon American brain, it is essential that public attention be focussed upon the need of paying also due regard to physical safety. The efficiency of the human engine and the ability of the man-power of the nation to withstand attrition, and the extra work that the men who are doing things have to bear at present, makes it important that these men should recognize the part that physical exercise plays in their ability to bear their full load of

Life Worth \$11,000.

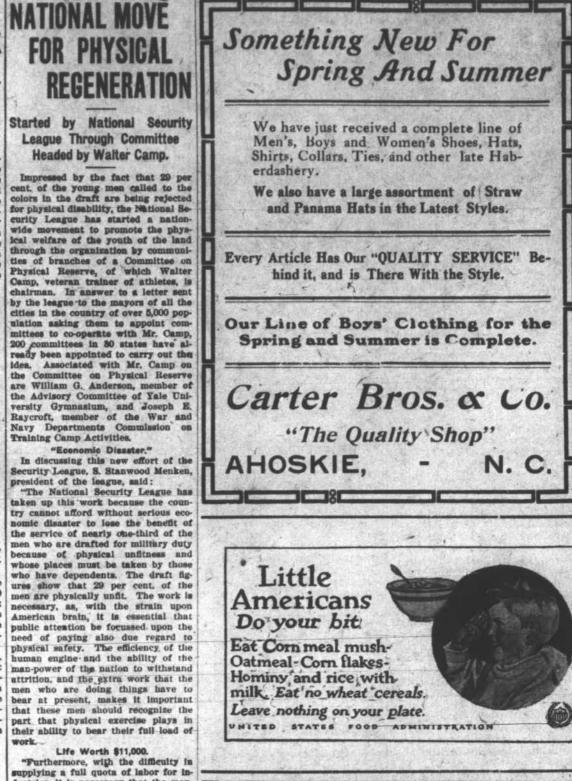

work.

"Furthermore, with the difficulty in supplying a full quota of labor for industries, it is necessary that the man power of the nation should be increased by the maximum measure of physical strength. Every individual has a direct interest in seeing that this result is brought about. As an economic matter, gach life is estimated to be worth to the nation \$11,000 and we cannot afford to waste any part of this most valuable national asset. As a human mafter we cannot as a Christian people, supposedly representing the highest intelligence and civilizanting tion, allow our people to neglect the simple things which would save them if fully understood.

"The work which Mr. Camp has undertaken is a movement of such nation-wide importance and so manifestly needed that its more presentment will commend it to every thoughtful Ameri-

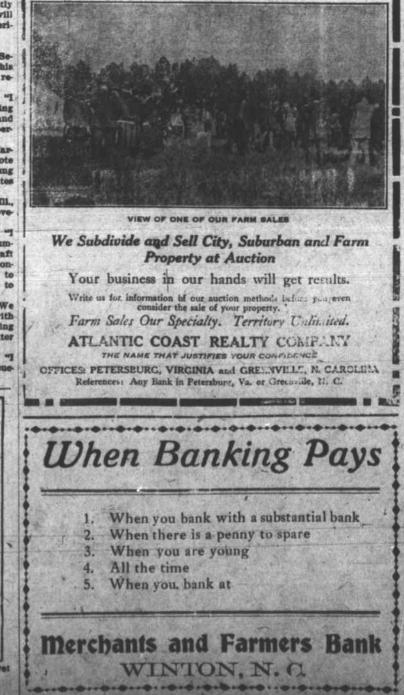

can." "Thoroughly Agres." Some of the indorsements of the Se-curity League'idea in organising this nation-wide campaign for physical regeneration read : Mayor Connell of Scranton, Pa., "I

thoroughly agree with you as to taking care of our young men physically and morally, and I am pleased to co-operate with you."
