TRUSTEES WILL DECIDE LOCATION COLLEGE

Removal of Chowan College To Be Left to To Board of Trustees

ACTION TAKEN AT THE BAPTIST ASSOCIATION

Meeting of The Trustees Will Be Held Soon To Determine Question

The West Chowan Association, in its annual meeting on last Tuesday, October 28th, by a vote of 49 to 10, passed a resolution, offered by Rev. Mr. Miller, pastor of the Seaboard Baptist Church, vesting in the Trustees of Chowan College, the right to remove Chowan College to any place they saw fit, provided they deemed it best to move the College at all. In event the institution is removed from its present location the trustees are likewise empowered to dispose of the property in any way they saw fit. In other words, the location of Chowan College has been left entirely to the Board of Trustees of that institution. Hon. J. H. Matthews, president of the Board, announced immediately after the passage of the resolution that a meeting of the trustees would be held soon, at which time the propositions of other towns as well as the claims of Murfreesboro would be duly considered.

Thus ended the first scrimmage over the probable location of Chowan College, the action being taken directly following the report on Christian Education. The matter was disposed of in about an hour, and but feeble opposition developed against the resolution as passed. By reason of this action the representatives from Murfreesboro and the other towns bidding for the location of the College had practically no opportunity to present their claims before the Association. Among the towns that were present with their official representatives were Murfreesboro, Rocky Mount, and Ahoskie. Elizabeth City, who is also putting in a bid for the college had forecasted the action of the Association, and representatives from that city announced that they were waiting for the meeting of the trustees, there to offer their proposition.

Hon. D. C. Barnes, of Murfreesboro, was granted the privileges of the Association floor, and in a very brief statement told of the interest his townspeople had in Chowan College. Rev. Kincheloe, of Rocky Mount, was also recognized; stating that his city was ready to make large inducements for the location of Chowan College there, provided the College was removed from the two associations—West Chowan and Chowan.

Rev. F. B. Raymond presented a resolution to the Association, designed to instruct the trustees to keep the College within the West Chowan or Chowan Association (should it be removed at all.) However, this resolution did not get far, Rev. Mr. Raymond himself withdrawing it, at the instance of Rev. J. A. Long, of Aulander, who stated that, although he did not believe that the trustees would move it out of the two associations any way, he did believe that the large subscriptions offered by towns situated

RALLY WILL BE STAGED IN SUFFOLK

Peanut Farmers Will Hold A Rally in City of Suffolk Next Week

PEANUT MARKET NOT YET VERY ACTIVE

Peanut Farmers Should Be Gratified Over Results Obtained

Thursday, November 6, will be a big day for the peanut growers of Virginia and North Carolina. Governor Bickett of North Carolina has accepted an invitation to speak on this occasion and the committee has the tentative promise of Congressman Heffin that he will also be on hand. These men have been to the very front in the fight for the rights of the Southern farmer and are truly learned.

Two other exceptionally able speakers have been secured: C. R. Titlow, Secretary of the Farm Land Bank of Baltimore and Mr. Dan T. Grey of Raleigh, N. C. Both have had a large part in the agricultural development of the South within the past few years and will have special messages for the peanut growers.

Another big feature of this rally at Suffolk will be showing some of the most popular agricultural movies of the United States Department of Agriculture. For this purpose the Photosho has been leased for a day and there will be one complete show before the address in the Academy of Music where the main exercises begin promptly at 11 o'clock and at least two in the afternoon. Just to add a little more life to this picture program one or two reels of the latest and very best comedy will be shown. There will not be one cent of charge for any part of this movie program, which is expected to add greatly to the pleasure of the occasion.

Full plans have been made with the Kings' Daughters for the feeding of the big crowd that will be in attendance on this rally, when the peanut growers will be patting one another on the back over the fine showing they have made in adding new members to their association and in the organization of their Exchange. They will sell oysters and sandwiches at moderate prices to all.

With peanuts now playing around the ten cent mark the growers will be in far better spirits than they were last spring, for on the very day Governor Davis addressed them in their big gathering March 11 they were down in the mouth because their peanuts were bringing only five cents or less, but they took courage and are now ready to come together in a great rally for the future development of their industry.

ed without either of the associations might spur the towns in the association and cause them to offer even greater inducements.

An early meeting of the Board of trustees will be called to meet in the town of Ahoskie, perhaps, to receive the bids from the towns asking for the college, and to settle the question of removing the college.

"Catsup." The word "catsup" which is spelled "catsup," "catchup," "ketchup" and "kitchup" is a corruption of the Chinese word "kitjap," the name given to an inferior kind of soy made in China.

When hostilities ceased there were in the hands of their Teuton captors millions of prisoners of war of all Allied countries, the terrible plight of whom is well known to all the world. Red Cross workers, carrying relief supplies of clothing, medicines and supplementary foodstuffs, penetrated the Central Powers as soon after the armistice as the military authorities would permit, and the work of getting the prisoners started back to their own countries was soon begun. In this photograph a group of these men are seen packed up and restored to something like normal health, awaiting the train that will carry them out of bondage.

SCOPE OF THE FOURTEENTH ANNUAL CENSUS EXTENDED

The Fourteenth Annual Census To Be Taken in Year 1920 Will Also Include Forestry and Forestry Products.

Washington, D. C., October 30—That the Fourteenth Decennial Census, on which the actual enumeration work will begin on January 2, 1920, is to be the most important ever taken is shown by the fact that the act of Congress providing for this census expressly increased the scope of the inquiries so as to include forestry and forestry products, two subjects never covered specifically by any preceding census.

The inquiries to be made relative to population, manufacturers, mines, quarries and agriculture were also extended in their scope by Congress the keenest interest over the orthodoxy of the census committees of both House and Senate while the law was under consideration. The statistics gathered on mining will include all oil and gas wells. Many startling developments in this important branch of the Nation's resources are looked for by the census officials. The figures gathered in Texas, Oklahoma and Kansas will no doubt prove to those most eagerly sought for, as shown by inquiries already received by the Census Bureau.

The compilation and gathering of forestry and forest products statistics will be in charge of a special force of experts. The accurate and comprehensive figures gathered concerning this vital natural resource will be much in demand, and the comparisons made with the conditions existing before the war will be interesting. Agricultural statistics will likewise be the subject of special effort on the part of the Census Bureau as the importance of farming is likewise being realized by the average citizen for more than ever.

HOME BUREAUS WOULD FEDERATE

In New York State a movement is on foot to make the State federation of farm bureaus representatives of the women's interests as well as those of the men. The women who now have representation in the county organizations, which are now known as the joint farm and home bureaus, have asked that the form of the State federation be altered to give them similar representation in the larger association.

Country's Largest Coal Market. New York City is the largest coal market in the United States.

WINTON WAVELETT

Mr. and Mrs. W. J. Rodes and son have returned to their home in Washington, after a short visit in the home of Mr. and Mrs. W. M. Eley.

Misses Josie Piland and Mary Kinsey from Chowan College spent the week end with Miss Piland's parents, Miss Mabel Holland from Holland Va., spent last week with her cousin Miss Besie Lee.

Mr. R. E. Williams, of Chase City Va., is the guest of Mr. and Mrs. Jno. E. Vann.

Miss Joyce Hines and brother of Gates spent a part of last week in the home of Mr. E. L. Jenkins and attended the fair.

Misses Mary Grant Spivey of Lewiston and Jessie McMullan, of Edenton were the guests of Mrs. C. W. Jones last week.

Mr. Royce Eure spent last week with his mother, Mrs. Mary Eure. Miss Elizabeth Griffin from Suffolk is here visiting friends and relatives.

Mrs. R. B. Hill and children from Suffolk are visiting parents, Mr. and Mrs. A. W. Liverman.

Miss Ester Royster from Henderson spent a part of last week in the home of Mrs. Willie Daniell.

Mrs. King and children have returned to their home in Wilmington after a visit with her parents, Mr. and Mrs. A. W. Taylor.

Miss Pearl Ward from Wallace spent last week with her sister, Mrs. A. P. Hines.

Mr. Wallace Jones from Edenton is visiting Mr. H. H. Jones.

Messrs. Charlie Matthews and Carlton Britt from Norfolk spent last week at home and attended the fair.

Miss Bessie VanNortwick and brother, David, from Woodland and Mr. Earl VanNortwick from Robersonville spent last week with Mr. and Mrs. C. L. Blount.

Mr. Hugh Jones, of A. & E. College spent last week with his parents, Mr. and Mrs. H. H. Jones.

Mr. Earl Liverman, who has been working in Norfolk, has returned to his home here and entered school.

DISTRIBUTING GOOD Sires

A system of county farmers' exchanges in livestock, feed and seed has been developed in Iowa the past year, forces of the State Agricultural College and of the United States Department of Agriculture working in co-operation. One of the principal activities of the exchange is in the distribution of pure-bred livestock. The breeders send a list of the animals they have for sale to the office of the county agricultural agent. He makes up lists of these animals and distributes them throughout the county, frequently advertising in the local papers. If any animals are not disposed of in the county, a list of them is sent to the extension department of the State Agricultural College, where lists are made up for the entire state and sent to every county and to the adjoining states. In this way many farmers who otherwise would not have an opportunity of locating pure-bred sires are able to get exactly what they want. Through the exchanges many carloads of pure bred stock have been sold to buyers from other states.

MEMBERSHIP DRIVE HAS BEEN DEFERRED

The Drive for Members of the American Cotton Association in November

WILL BE 10 DAYS FOLLOWING NOVEMBER THE 10TH

Quotas of Each County Will Be Worked out and Literature Mailed

Raleigh, October 30—Campaign Director, S. G. Rubinow who has charge of the membership drive for the American Cotton Association in this State, is urging all county organizations to secure immediately the team of canvassers who will make the rounds of the farmers and business men in every county during the six days following November 10, when the teams are asked to begin the actual canvass. Two men, or women for that matter, for the ladies have shown a very great interest in the cotton association work, will work on each of the teams, and a team will be sent into every cotton county. In addition there will be workers for the cities in the cotton territory.

These teams will work mainly for the regular memberships, though the charter and sustaining members will not be turned down. The canvassers, however, will have as their object, securing every man and every business in his particular community for the regular membership in the cotton association, on the basis of twenty-five cents for every thousand dollars invested. Professional men who are not willing to take out a charter or sustaining membership, will be asked to pay a minimum dues of three dollars per year. Every class of citizens will have opportunity of joining this association for the betterment of the condition of the whole South during the six day campaign in November.

Literature about the association has been sent out to every cotton growing county, but if more is needed this will be furnished upon application to the state headquarters at Raleigh. This literature is being distributed by the County organizations to farmers and other prospective members in the outlying districts. Counties which are short on this kind of literature can secure same from Raleigh.

Some time during the next week or more the quotas will be worked out for the various cotton counties. The Association is looking to North Carolina to produce about 100,000 members, and that number is not impossible if the folks become really interested.

Warsaw. Warsaw is a very beautiful and imposing city as viewed from the castle at Praga across the Vistula, and contains a number of magnificent palaces, among which an ancient Saxon stronghold is the most notable. There also is the cathedral of St. John the Divine, a splendid example of gothic architecture, which dates from 1230.

Fortune Await Inventor. "Untearable" linen has long been the dream of many a man, but although experiments have often been made, the way to weave an indestructible cloth is still unknown, and no one has claimed the fortune which is said to be offered the inventor who solves the mystery.

CREDIT UNIONS ARE ACTIVE IN THIS STATE

Farmers Are Taking Advantage of Government Farm Loans

REPORT GIVEN BY MR. W. R. CAMP, SUPT.

Credit Unions in This State Are Becoming More and More Active

West Raleigh, N. C.—The latest report of the North Carolina Credit Unions, as submitted by Mr. W. R. Camp, Superintendent shows that these 28 unions now in active operation have total resources of \$45,285.66. The unions have 980 members enrolled, with 313 rated as depositors in them. About \$12,000 has been paid in shares, and about \$25,000 in total deposits. The loans outstanding to members amounts to \$38,000, and 137 members are borrowers from the unions.

These unions are becoming quite a factor in the different communities where they exist. For one thing, they are enabling their members to hold their cotton for the minimum price set by the Cotton Association. In speaking of the work, Mr. Camp says, "without attempting to state the arguments for and against this movement which is vitally in the interest of cotton growers, one fact should not be lost sight of, that is the low purchasing power of Europe. Europe before the war purchased 60 per cent of our cotton. Now that all economic barriers have been removed, European demand for cotton after the scarcity of the long war period should be greater than ever; but because of shortage of labor, mill machinery and credit, sales to Europe must be slow. Therefore, the strong credit unions may feel that they should help their members to hold their cotton until the market demand becomes sufficient to pay a price that will assure the farmer a living profit. If loans are made on cotton the credit committee will need to see that the margin of security is larger than usual and be sure to be able to demand additional security if the prices drop much."

HORTON'S PERSONALS

Rev. James Long filled his regular appointments here Saturday and Sunday.

We rejoice to know that every clock has the same time again.

Mr. James Blaw, of Norfolk, visited relatives here Sat. and Sunday.

The death angel visited our community last week and took from it the infant child of Mr. and Mrs. Geo. Rawles.

The new paint has added much to our school house.

Mr. J. C. Jenkins went to Norfolk a few days ago and drove back a new Studebaker car.

School will open here on Monday, November 3rd, with Miss Sallie Coker of Aulander in charge.

Messrs. J. C. Jenkins, W. K. Powell and H. W. Greene, and Misses Bertha and Bettie Powell attended the West Chowan Association at Seaboard Tuesday.

Mr. Z. V. Greene made a business trip to Roxobel Monday morning.

A number of our people attended the fair at Winton last week.

We are sorry to report Mr. W. F. Minton on the sick list this week.
