# RED SEAL LYE

LIGHTENS EVERY WOMAN'S WORK

**Make 10 lbs. of Soap  
and Save \$1.00**

THE cleansing power in any soap or cleanser you buy is lye. Soap is tallow (grease) mixed with lye and water. You can make it yourself and save a great deal of money. It will suit your needs better, too, for you can make just the kind of soap you want, either hard or soft.

Simply take 5½ pounds of clean grease (lard or tallow) free from salt. Melt it down. Then set aside to cool.

Take a large can of Red Seal Lye and dissolve it in 3½ pints of cold water. Bring this to about Summer heat and pour it slowly into the melted grease. Stir until the mixture becomes uniformly thick and pour into a mould. Cover up and set in a warm place until next day. Then you can cut it into pieces and you'll have 10 lbs. of the finest cleansing soap you ever used—and will have saved about \$1.00.

Isn't that well worth while? You bet it is! And then just remember these other fine uses for Red Seal Lye: It is a water softener, saving a great deal of soap. It kills all disagreeable odors, purifies and disinfects at the same time. Dissolve a spoonful of it in a quart of water and you have a wonderful cleaning solution for helping lighten your work in washing dishes, doors, floors, woodwork—everything about the house. A little of it sifted into the sink cleans out the pipes and prevents them from becoming stopped up.

But make sure the lye you buy is Red Seal Lye. This pure lye is granulated and packed in cans that are easy and convenient to use. Always ask your storekeeper for, and be sure to get, the old reliable Red Seal Granulated Lye.

P. C. TOMSON & COMPANY, Philadelphia, Penna.

The Very Best Lye Your Money Can Buy

Follow directions when you use Red Seal Lye. There is a full printed set with every can. They will tell you how to use Red Seal Lye safely and savingly in many helpful ways.
