

Meeting of County Road Commission

The Board of Road Commissioners of Hertford County met on the 9th day of January, 1922; present, J. B. Worrell, E. B. Vaughan, Dr. W. B. Pollard, E. N. Sykes and Dr. L. K. Walker.

Meeting of the last meetings were read and approved.

On motion and carried it was ordered that F. G. Hines, Road Superintendent, be authorized to employ E. C. Coley as garage man, to keep up all cars and trucks of the commission and perform any other duties agreed upon between Coley and the said Hines, the salary to be not exceeding \$4.50 per day.

On motion, F. G. Hines, E. B. Vaughan and J. B. Worrell are appointed as a committee to investigate the repairs to the Murfreesboro bridge report back to the Board.

Contract was entered into between the Board of Road Commissioners of Hertford County and the Road Commission of Pasquotank County for the hire and taking over of the convict force of the latter county; a copy of said contract is on file in the office of the secretary.

The matter of employing keeper of Draw, Murfreesboro bridge for the present year is left by the Board to Mr. E. B. Vaughan.

The matter of erecting steel bridge across Wiccacon Creek at Boone Harrell Ferry, in Harrellville Township was taken up by the Board and several bids for the said bridge was submitted, which bids are on file; and upon motion of B. N. Sykes, seconded by E. B. Vaughan the contract was awarded for the erection of the said bridge to Austin Bros. Bridge Company, Atlanta, Ga., for the contract price of \$20,200, and to be built in accordance with the plans and specifications and contract on file in the office of the Board. It being the understanding of the Board that any amount due Harrellville Township shall be used by the Board in part payment of the price of said bridge; and it was further resolved that the Austin Bros Bridge Company of Atlanta, Ga., be and they are hereby authorized to get the sanction and approval of the Secretary of War to the plan and specifications of the steel bridge to be erected across the Wiccacon River as per blue print and specifications furnished by the said Bridge company and which are made a part of hereof. This bridge is to be built under the general laws Sections 3750 and 3802 of the Consolidated Statutes authorizing County Commissioners to build bridges, and Public-Local laws of the General Assembly of North Carolina, session of 1921, Chapter 347 transferring such authority to the Board of Road Commissioners of Hertford County.

PROMPTNESS ADVISED IN SHIPPING HIDES

Advice is Particularly Applicable to Sheepskins.

Sell Direct to Tanners, Thus Eliminating Middlemen or Agents—Repeated Handling Tends to Reduce Quality.

After country hides and skins have been properly and securely bundled and tagged ship them to market without delay, advises the United States Department of Agriculture. Do not let the bundle remain in the sun, drafts or water, or against rusty or corroding metals. Promptness in shipping is always advisable, but applies particularly to sheepskins. They heat rapidly after being bundled, and in hot weather especially must reach their destination quickly.

Hides and skins should be shipped as directly as is practicable and economical to reliable dealers who sell direct to tanners, thus eliminating unnecessary middlemen or agents. Repeated handling tends to reduce the quality of hides and skins. For most farmers, ranchers and small butchers it would be desirable if they could dispose of their hides and skins immediately after removal, without salting and curing them, but this is generally impracticable, since only a few are near enough to tanneries or dealers equipped to handle their products. Whenever thus favorably situated, producers find it both profitable and practicable to sell the hides and skins in the green, unsalted condition. In no case, however, should this method be considered unless the producer is certain that the green hides and skins will be delivered promptly. As a rule, 24 hours after skinning is the maximum time advisable.

BENDS IN SEPARATOR BRUSH

Straight Handle is Inconvenient and Requires Much Twisting of the Wrist.

The wire bristle brush which is used to clean certain parts of the average cream separator is straight and to do a thorough job requires lots of bending of the wrist. By making two

Bends in Brush Make it Quite Easy to Clean Parts of Cream Separator. Right-angled bends near one end, thus forming a sort of crank, it will be found that the brush can be used to greater advantage than before. Cut off the loop in the end and operate the brush by turning the handle as a crank.—Farm and Home.

BIG INCREASE FROM SHEEP

Yields of lambs and wool depend largely upon the breed of sheep selected. With ewes of any one of the medium-sized mutton breeds, the United States Department of Agriculture points out that 115 per cent of lambs can be raised, and 150 per cent is not infrequently reached. The wool clip varies from seven to eleven pounds per ewe. The larger mutton breeds yield more, as do also the fine wools, but the value per pound of the latter has in normal times been less on account of the greater proportion of grease. In comparison with cattle and swine, sheep can be made to yield practically the same net returns on the value of the land, if well cared for, and if kept on lands reasonably well adapted for sheep raising.

BUY FARM THAT IS EQUIPPED

Gives Newcomer Chance to Work Out Changes and Assures Self-Sustaining Business.

Often it is a distinct advantage when buying a farm to purchase the equipment, live stock and materials already on the place. In this way, the United States Department of Agriculture points out, an income is obtained almost from the outset, which usually makes possible the operation of the farm without a loss, and thus gives the newcomer a chance to work out changes and plans and at the same time have a self-sustaining farm business.

If only the bare farm is purchased it usually takes some time to supply all the equipment and live stock and put the place on a paying basis. In the meantime overhead costs and other expenses amount to a large item. Hence the advantage that so often is gained in buying a farm that is a going concern.

Notice of Sale under a Deed of Trust

By virtue of the powers contained in a certain Deed of Trust executed by General Williams and wife, Ida Williams to E. L. Garrett, Trustee, on the 13th day of April, 1916, which deed of trust is duly recorded in the office of the Register of Deeds for Hertford County, in book 51, at page 289, the undersigned trustee will on the 27th day of February, 1922, at 12 o'clock noon, offer for sale at the Courthouse door of Hertford County to the highest bidder for cash, the following described tract of land, to-wit: Situated in Ahoshkie Township, Hertford County, North Carolina, to-wit: That tract of land known as the General Newsome home place and bounded on the north by the road that leads from Ahoshkie to Aulander, N.
