JUNIORS SUFFERING FROM LOSS OF MEMORY

The Junior Class is in the market for a "memory tonic," having lost all memory of even hinting at giving the annual entertainment in honor of the graduating class. They expressed astonishment at the report published week before last, to the effect that they were to "entertain the Seniors," and acting even as tho the idea had never been that of. Unless the custom of past years is done away with there will most assuredly be an "entertainment," and we fail to see why those shirking Juniors appear surprised on being reminded of the fact.

UNFAVORABLE WEATHER BAD ON BASKETBALL

The basketball has not been seen on the courts for several days, owing to the unusual severity of the weather, which makes practice impossible. However, with the opening of the Spring, and a little work done on the courts and goals, Coach Raynor hopes to put new life into the boys' team, devote more time to practice, and to develop a team equal to that of any outsiders, even Rich Square, our most dreaded opponent.

EDITORIAL

The "Unwritten Law" of the High School strictly adhered to in the past, seems to have taken a complete reversal this year. Instead of the Seniors dominating every branch of the school activities, they seem to have assumed the position of subordinates, weak-kneed subjects, cowered into meekness, by the aggressiveness of the Juniors and Sophs., and in a small degree by those unspeakable Freshies. This condition must not, it cannot, last. With the largest Senior Class ever, the Seniors must become more aggressive, if need be, in re-asserting and maintaining their time-honored "rights." The other classes must be made to know their places: we Seniors must dominate! Paste this in your hats, you Juniors, Sophs., and "Freshies!"

Miscellaneous and Other Things

Another drawback to being a parent is the necessity of giving the kids music lessons and then being driven bug-house listening to their practicing.

Burns Program Wednesday

The Burns' program, postponed for nearly a week, was given by the Seniors Wednesday, taking place of the regular Chapel exercises. It was rendered as follows: Introduction, Ira Parker; Tribute to Burns, Cyrus Bazemore; Song, "My heart's in the Highlands," in concert; "John Anderson, my go," Helen Modlin; "Green Grow the Rashes, O," Agnes Brett; "Oh, Wert thou in the Cauld Blast," Earle Lawrence and Faye Gerock; "Bonnie Doone," Earle Lawrence and Faye Gerock; "Comin' Thru the Rye," in concert; "Auld Lang Syne," in concert, which concluded the program. The Juniors are expecting to stage a program soon, but as yet, the subject has not been announced.

CARE SHOULD BE EXERCISED IN FEEDING COWS

(Continued from Page One)
The requirements of a good dairy feed, although a fair milk yield may be obtained when it is fed in liberal quantities the constant feeding of such ration usually results in impairing the cow's health.

Pasture is the natural feed for a cow, and in many of the respects the best. An abundance of good, succulent, palatable grasses will insure heavy flow of milk with little or no grain fed in addition. At least two acres well sodded with a good pasture grass mixture should be provided for each of the cows.

Since water constitutes three fourths of the total volume of milk, it is important that an adequate supply of good clean water to be provided. Stale or impure water is distasteful to the cow and she will not drink enough for maximum milk production. In the winter time the temperature of the water will chill the cow's body and she will refuse to drink sufficient amounts to insure a good flow of milk.

TWELVE STARS IN CECIL DE MILLE'S PRODUCTION "THE AFFAIRS OF ANATOL"

Remarkable Cast Headed by Wallace Reid, Gloria Swanson, Elliott Dexter, Bebe Daniels and Agnes Ayres Seen in Superb Picture

Twelve stellar players and a supporting cast of unrivalled quality—that's the record set by Cecil DeMille's latest Paramount masterpiece "The Affairs of Anatol" which will be shown at the Richard Theater next Wednesday. The roster reads like screenom's who's who. The phrase "all-star cast" is a much abused one but it adequately describes a cast that includes Wallace Reid, famous Paramount star; Gloria Swanson, Elliott Dexter, Bebe Daniels, Monte Blue, Wanda Hawley, Theodore Roberts, Agnes Ayres, Theodore Kosloff, Polly Moran, Raymond Hatton and Julia Frye.

Nothing like this cast in the way of aggregate talent has ever been assembled before. The drawing power of almost any of the names on the roll has been sufficient to awaken the interest of the discriminating public. Here, for the first time, they are appearing in a single production under the direction of a master producer—Cecil De Mill.

"The Affairs of Anatol" was written by Jeanie Macpherson author of many notable Cecil DeMille's productions. Her story was suggested by Arthur Schnitzler's scintillating comedy of the same name.

The same quality that is featured in the cast of principals and in the authorship has carried through every phase of the production work.
