### LAW REQUIRES AUTOS TO STOP AT CROSSINGS

Richmond, Va., May 3.—Drivers of automobiles and other vehicles using the public highways of Virginia must come to a full stop before crossing any main line railway track at grade under a law recently enacted by the General Assembly of Virginia.

The law provides that drivers of all vehicles on approaching any grade crossing of a main line railway track outside an incorporated town must stop not less than ten feet nor more than one hundred feet from the nearest rail. A penalty of ten dollars for each violation is provided in the act.

Advocates of this act pointed out that its enforcement would greatly reduce the number of grade crossing accidents. By enacting this law the Virginia solons have given legal effect to the admonitions which railroads have for many years displayed on their crossing signs, urging drivers of vehicles to "Stop, Look, and Listen!"

Progressive cards were played. Miss Mary Newsome made the highest score, and was given an attractive vanity. The fairies then tripped in bringing many lovely gifts to the bride-elect.

A dainty salad course was served.

### TREASURY CERTIFICATES

Postmaster A. T. Willoughby of the Ahoskie post office is cooperating in a nation-wide campaign of the Government to protect the American people against fake and unwise investments and to bring hidden surplus funds into circulation.

The Government is warning people against financial transactions with strangers and advising them to put their money in good securities, place their funds in banks, or invest in Treasury Certificates at the Post Office. It is difficult to convict swindlers who obtain money from unsuspecting people in this manner until some of the Federal laws have been broken.

Department officials say they are amazed that people will pass by a bank or the post office which offer protection of funds and safe investment to hand their money over to some smooth-talking swindler about whom they know nothing. Postmasters have been called upon by the Department to use their influence in every way possible to prevent the loss of millions of dollars each year through unscrupulous promoters and swindlers.

Postmaster Willoughby says: "I am sending letters to the patrons of this office, even to those of limited means, calling their attention to an investment guaranteed both as to principal and interest by the United States Government and which will increase 25 per cent in five years. Through this postoffice it is possible to purchase a \$25 Treasury Saving Certificate for \$20, a \$100 Certificate for \$80 and a \$1,000 Certificate for \$800, representing an investment yielding, at purchase price, 4 1-2 per cent interest, compounded semi-annually. If the purchaser wishes to cash his certificates before the end of five years, he can get his money back with interest figured at about 3 1-2 per cent, compounded semi-annually. I am hoping the people of this community will take advantage of this offer or put their money into a bank as a protection against possible loss."

### PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headaches, no hawking, snuffing, mucous discharges or dryness; no straining for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly. It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.
