EVERY ONE OF US A MILLIONAIRE

The word "dollar signifies 23.22
grains of "fine" gold. America has
about nine trillions of "fine" gold
grains in bullion in its vaults. Which
is about 90,000 grains for every
man, woman, child and baby in the
country. But credit counts for 20
times that, or one million, eight hun-
dred thousand. So that makes us all
millionaires, doesn't it? Yep!

ACREAGE LISTING TO HELP GROWERS

Tobacco farmers of North Carolina
will benefit directly from the recent
state law requiring assessors to list
the acreage of each farmer's crops,
says M. O. Wilson, Secretary of the
Tobacco Growers' Cooperative Asso-
ciation.

In an interview at Raleigh head-
quarters of the Tobacco Growers Co-
operative Association yesterday, Mr.
Wilson expressed the hope that to-
bacco farmers would give every as-
sistance to the tax assessors whose
official statement of the acreage of the
planted crops will so clearly indi-
cate production as to protect the
farmers against the ever repeated
claims of over-production used by
speculators and buyers to beat down
the price of tobacco regardless of
whether there be under-production or
over-production.

"Information hitherto unobtainable
by the tobacco growers but carefully
compiled by those who buy his to-
bacco will be at his disposal hereafter
provided he cooperates whole-heartedly
in supporting the present effort of
the state to aid him in gaining accu-
rate crop estimates which have noth-
ing to do with any increase in taxa-
tion," said Mr. Wilson.

In line with the recent editorial in
the News and Observer pointing out
that an annual census of crop acre-
ages bears the same relation to agri-
culture as an inventory to an inven-
tory does to other forms of business.
Mr. Wilson said, "The farmers of
North Carolina and Virginia are tired
of hearing the old cry 'Wolf', 'Wolf',
with which the speculators have al-
ways tried to scare the growers into
sacrificing their products."

LINER IS UNSINKABLE

Might Float If Cut in Two, Belief
of Experts.

Lone Star State on Maiden Voyage to
Aid American Sea Commerce—
Captain Engages Orchestra
to Play Jazz.

New York.—Keen competition has
developed in the race for supremacy
on the seas. The latest addition to
the fleet that is keeping the American
flag to the forefront in the sea com-
merce of the world is the steamship
Lone Star State, recently delivered
from her builders to the United States
Lines, which has just sailed on her
maiden voyage to Bremen.

In the Lone Star State, as in other
passenger carrying vessels constructed
under government supervision, the ele-
ment of safety was of prime considera-
tion. It is declared that the new liner
is practically unsinkable. Originally
planned as a transport and later desig-
nated to act as a hospital ship to bring
back American wounded from France,
the Lone Star State was built torpedo
proof as nearly as human ingenuity
could make her.

The vessel has thirteen water-tight
compartments. Shipping men who
have inspected her have declared that
even if she were cut in twain each
half would remain afloat.

From the standpoint of comfort, noth-
ing has been left undone to make her
a luxurious vehicle for sea travel. She
carries two classes of passengers, first
and third. Full attention has been
given to the cuisine and amusement fa-
cilities on the Lone Star State. The
chefs and the kitchen personnel have
been carefully selected with a view of
rivaling the dining service of a first-
class hotel ashore.

Captain Frank T. Burkhart, who is
impresario as well as navigator, said
before he sailed that he had adopted
as his slogan "A bas ennui," which
properly translated means a Filipino
orchestra of twenty-two pieces. Every
member of the orchestra saw service
in the United States navy during the
war. The captain said they were not
only at home in jazz, but that they
could venture as well into the realm of
grand opera. He promised plenty of
dancing on the decks in good weather.

ONLY WOMAN MARSHAL

Lewis of Oklahoma City, Okla., the
only woman in the United States hold-
ing the position of marshal of a Su-
preme court. She is also chief clerk
of the Oklahoma Supreme court.

Mrs. Lewis has an LL. B. degree
from Cumberland university, Lebanon,
Tenn., and her husband is a lawyer
at Duncan, Okla. She was admitted
to the Oklahoma bar in 1920. She
was appointed marshal of the Su-
preme court by Chief Justice John B.
Harrison.

CARE RUINS FISHES' 'MORALE'

Protected Salmon Grow Too Tame,
Canadian Parliament Is Told
by Expert.

Ottawa, Ont.—Government fish
hatcheries have ruined the "morale"
of the salmon of British Columbia, ac-
cording to the story told to the house
of commons by A. W. Neill. It seems
that when the salmon come into the
world at the fish hatcheries they are
guarded against all enemies and Mr.
Neill says they lose their protective in-
stinct. So, when the salmon has come
of age and is sent out in the cold
world he is as "tame as a cat," to quote
Mr. Neill, and when he meets an en-
emy he "stands with his mouth open
and accepts murder as if such a thing
were foreordained."
