## NOTICE OF SALE OF BONDS

Notice is hereby given that bids will be received by the Board of Commissioners of the Town of Winton, N. C., at the Clerk's office in said town, up to and including July 25th, 1922, at noon, for the purchase of \$12,000 Electric Light and Power System Bonds.

Said bonds shall be dated March 1st, 1922 and mature \$500 thereof on the 1st day of March in each of the years 1924 to 1935 both inclusive and \$1,000 thereof on the 1st of March in each of the years 1936 to 1941, inclusive, bearing interest at the rate of SIX PER CENT per annum, payable semi-annually, denominations of \$500 each, and both the principal and interest payable at the Hanover National Bank, in the City and State of New York.

Said bonds are issued in pursuance of the Municipal Finance Act (Sections 2918 to 2961, Consolidated Statutes of North Carolina, as amended and re-enacted. Extra session of 1921) and an ordinance and resolution duly adopted by the Board of Commissioners of said Town on the 16th of February, 1922.

Each bid must be accompanied by a certified check of \$240.00 payable to the Treasurer of the Town of Winton, North Carolina, as evidence of good faith. No offer for less than par will be considered.

The right is reserved to reject any and all bids, or to accept any bid deemed for the best of the Town.

By order of the Board of Commissioners of the Town of Winton, North Carolina.

P. S. JORDAN, Clerk,  
Town of Winton, North Carolina.  
(Acta Sbalqlaf F)

## ADMINISTRATOR'S NOTICE

Having qualified as administrator of the estate of Martha E. Godwin, deceased late of Hertford County, N. C., this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned at Cofield, N. C., on or before the 12th day of July, 1923, or this notice will be plead in bar of their recovery. All persons indebted to said estate will please make immediate payment.

This 12th day of July, 1922.  
G. E. HOLLOMAN, Administrator,  
7-14-6t-pd. of Martha E. Godwin.

# PREVENT OUTBREAKS OF INJURIOUS PEST

## Control Webworms in Corn by Cultural Methods.

After Crop is Once Planted and Field is Found to Be Infested There is No Practicable Way of Getting Rid of Them.

(Prepared by the United States Department of Agriculture.)

Outbreaks of webworms in corn in the Middle Eastern states can be prevented only by cultural methods, according to the bureau of entomology of the United States Department of Agriculture. Unlike most of our destructive pests, the various species of webworms are all natives of America and have not been introduced from foreign lands.

Summer or very early fall plowing should be practiced. Plowing in late October or November has little effect because the worms are already in their winter webs under the surface of the ground. Land that has been in sod or pasture, or lain fallow and grown up to weeds and grass should be plowed in July or August, if it is intended to plant it to corn the following spring.

Grasslands of all kinds—meadows, pastures, or lawns—furnish the normal food of sod webworms, but they also gnaw young corn plants below the surface and deform them so as to prevent the production of grain. After the corn is once planted and the field is found to be infested there is no practicable method of getting rid of the worms; the only thing that can be done is to produce conditions that will permit the corn to grow in spite of them.

Disking in the spring, the application of fertilizer, and the sowing of sound seed are the chief preventive measures that will have any effect. Neither poisoning nor trapping has met with any success.

## KEEP WEEDS OUT OF GARDEN

With Few Pieces of Flat Iron and an Old Wheel an Efficient Tool Can Be Made.

From a few pieces of flat iron, such as old buggy tires, and a wheel that can be taken from an old wheelbarrow or truck, it is possible to make an efficient weeder for keeping the home garden free from weeds.

The device is constructed, as indicated by the drawing, with a blade, parallel with the ground, which is pushed along just underneath the surface, cutting the roots of weeds and other plants outside the rows. Not

A Homemade Garden Weeder That Not Only Keeps Down the Weeds but Serves as a Cultivator to Break Up the Hard Crust Between the Rows.

only will this instrument keep down the weeds, but it also acts as a cultivator by breaking up the hard crust between the rows and conserving the moisture for useful vegetation.—C. L. Meller, Fargo, N. D., in Popular Mechanics Magazine.

## GREEN MANURING AIDS SOIL

Really One of Oldest Methods—Crops for This Purpose Were Used by Ancients.

Green manuring—plowing under green crops—as a means of soil improvement, although it has been emphasized in recent years, can hardly be called a new discovery, says the United States Department of Agriculture. It is really one of the oldest methods. Crops for this purpose were used by the ancients, the Romans using lupines, which were sown in September and turned under in May for the benefit of the following crop.

In Germany the use of lupines began in the middle of the Nineteenth century and has proved an important factor in reclaiming the sandy lands of parts of Prussia. In England legumes and other plants are commonly used; in India and Japan the farmers gather green plants of many kinds, sometimes even cutting twigs from the trees and carrying them to the rice fields.

In the United States the use of special green-manure crops is much more general in the South than in the North. Under irrigation they play an important part in orchard culture in the West, but not under dry-farming conditions.

## GREAT IMPORTANCE OF GRIT

Lack of Material Will Cause Indigestion and Impaired Health of Poultry Flock.

Many poultry raisers gradually begin to slight the importance of grit. Lack of grit means poor digestion and impaired health. Regular poultry grit should be kept before the fowls in boxes or hoppers at all times. In addition, a load of gravel near the chickens' home would improve the health and increase the egg-yield on many a farm.

# JUST FOR FUN

There was an old lady named Fitch Who heard a loud snoring, at which She took off her hat And found that her rat Had fallen asleep at the switch.

"Shall I brain him?" said the sophomore, As the victim's courage fled; "You can't: He's a freshman— Just hit him on the head." —The Dirge.

"Here waitress, this doughnut has a tak in it." "Well, I declare! I'll bet the ambitious little thing thinks it is a flivver tire." —Railroad Telegrapher.

A much-battered young man came into the hotel at midnight and asked the clerk for room 23. "Can't give you that one," replied the clerk. "It's taken." "Who's got it?" asked the steady one. "A man named Jones." "What Jones?" "Mr. A. B. Jones has room 23." "That's all right," he grinned; "that's me. I fell out th' window."

A veterinary surgeon was instructing a farmer as to a suitable method for administering medicine to a horse:

"Simply place this powder in a gas pipe about two feet long, put one end of the pipe well back in the horse's mouth, and blow the powder down his throat."

Shortly after the farmer came running into the veterinary's office in a very distressed condition.

"What's the matter?" asked the veterinary.

"I'm dying!" cried the farmer. "The horse blew first!" —Forbes Magazine.

A Chicago man found alimony so expensive that he has married his wife again; which goes to show what lengths some men will go to save money.—Evening Capital News.

Little James' composition on responsibility: "Boys has two buttons to their suspenders to keep their pants up an' when one button comes off, there's a lot of responsibility on the other button." —Holland's Magazine.

## CARD OF THANKS

To our friends and neighbors and to the Rev. Parker, all of whom were so kind and faithful to us during the recent illness and death of our beloved husband and father, we wish to express our heartfelt thanks.

Mrs. Bettie Sue Gatling and children

# BETHLEHEM NEWS

Rev. Dalley filled his regular appointment last Saturday and Sunday. Quite a number of people of this community motored to Aulander last Sunday afternoon to hear the speaking of Miss Ella Pierce of Ahsokie, who spoke at the B. Y. P. U. meeting.

# ATLAS PORTLAND CEMENT

MORE cars are destroyed by fire each year in the garage than on the open road. As much money is spent in garage rent each year as would adequately build new garages for all cars involved.

There are two answers to this situation. Own your own garage. Build of fire-proof material.

Your building material dealer can tell you how to build most economically and permanently. He will tell you Atlas Portland Cement is "the Standard by which all other makes are measured."
