Popular Western Type of Bungalow on Practical Lines.

CONCRETE AND BRICK USED

A Type of Home That Embraces Many Modern Ideas and Avoids Foolish Fads—Front Porch Variation From Usual Practice.

By WILLIAM A. RADFORD
Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to the subject of building, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 1587 Prairie avenue, Chicago, Ill., and only inclose two-cent stamp for reply.

Without the waste of fads and frills which may please at first, but usually become an eyesore, this variation of the popular western bungalow type is distinctive without being overly ornate. There is no straining for effect, but judicious use of a variety of materials

such as brick and concrete as well as lumber and little refinements would get attention for this home, even if it stood on a solid street of modern residences. The front porch makes an immediate appeal and a lasting impression. It is a variation from the usual prac

tice and a very welcome variation. The porch steps and platform are of concrete and the footings of the house are of the same material. The porch over the door is covered with a substantial shingle roof and the rest is given the popular pergola treatment. Brick foundation and pillars add durability and neatness to the front exterior. Turned wooden pillars painted white and with caps that are neat without being overly fussy further the general attractiveness of the spacious and well planned porch—a portion of the home that is so much used and so

affects the general lines that it is well to give it careful thought and special planning.

While at first impression this design might be thought to be that of a small house, we soon notice that it is really quite a commodious home. In addition to the usual living room, dining room and kitchen on the first floor there is a pleasing reception hall and a breakfast room which means a saving of time and effort when the family is alone and there is no special reason for using the dining room.

There are three bedrooms upstairs, and none of them are of the boxwood type. Rather they are all of good size, each having the convenience of an ample closet. Note the good judgment displayed in placing the bath room, which is handy to all the three bedrooms.

Besides the three bedrooms there is the sleeping room afforded by a closet bed in the living room, so a good-sized family and its guests need never be cramped in this attractive, excellently arranged home.

The use of glass doors between the living room and dining room, a built-in ironing board, a fireplace and a downstairs toilet are added refinements which help to make this one of the most livable designs shown in this department.

**IF KIDNEYS AND
BLADDER BOTHER**

Take a glass of Salts to flush out your Kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

**SULPHUR SOOTHES
UGLY, ITCHING SKIN**

The First Application Makes Skin Cool and Comfortable

If you are suffering from eczema or some other torturing, embarrassing skin trouble you may quickly be rid of it by using Mentho-Sulphur, declares a noted skin specialist.

This sulphur preparation, because of its germ destroying properties, seldom fails to quickly subside itching, even of fiery eczema. The first application makes the skin cool and comfortable. Rash and blotches are healed right up. Rowley Mentho-Sulphur is applied like any pleasant cold cream and is perfectly harmless. You can obtain a small jar from any good druggist.
