for reports.
House Bill No. 56: To enact what is known as the Letter Service

This bill is practically the same law as is now in force in the state of Missouri, and has been upheld and approved by the Supreme Court of the United States.

It provides that any employee of a corporation, if employed as long as ninety days, upon his discharge, or upon his quitting the service of the corporation, shall be entitled to a letter from the superintendent, manager or chief executive officer, giving the nature of the services that the employee has rendered, the duration of his employment, and stating for what cause, if any, such employee has quit the service of the corporation. It becomes to an employee a shield and protection, and also, to any worthy employee, an aid in securing recognition from others to whom he might apply for a position.

There is little chance for the measure to go through. There are too many corporation attorneys who will oppose its passage.

FEW FOLKS HAVE GRAY HAIR NOW
Druggist Says Ladies Are Using Recipe of Sage Tea and Sulphur

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of Wyeth's Sage and Sulphur Compound, which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.
