

Mr. Lawrence To Change

(Continued from page 1)

der a county unit and employ a road engineer. It permits this to be done, but leaves the matter to the discretion of the road commissioners, who should have the latitude to work the roads in such manner as they deem to be the best interests of the county.

SEC. 3. This also amends the road law. It reduces the amount to be paid in order to exempt one from road duty, from "six" to "four" dollars.

SEC. 4. Is also an amendment of the road law. It provides that the leading highways or main roads shall be 30 feet wide, as is now the law, but changes the width of all connecting, or minor roads and reduces the width from 30 feet to 24 feet.

SEC. 5. Amends the road law. It gives a person twelve months instead of six, as time in which any claim may be presented for taking material from his land.

SEC. 6. Amends the road law. It gives the owner of land twelve months, instead of four, in which to set up a claim for damages for lands condemned for road purposes.

SEC. 7. Amends the road law, and permits road commissioners to require a license tax, in an amount not to exceed fifteen dollars per month (the present law limits them to three dollars per month) on all non-residents hauling logs or other heavy material over the public roads; and further provides that in the months of December, January, February and March, they may also impose a tax not exceeding ten dollars per month on all residents of the county who are engaged in the business of hauling logs or other heavy material over the county roads.

SEC. 8. Amends the road law, so as to make the same conform to the decisions of the Supreme Court. It separates the property tax from the per capita tax, and sets apart the property tax for road purposes.

SEC. 9. Relates to the publication of the proceedings and minutes of meetings of both the county commissioners and the road commissioners. This section is intended as affording the county an opportunity of knowing what is going on.

SEC. 10. Requires list takers and assessors, when appointed by the county commissioners, to give in their own lists before the Register of Deeds.

Since all others have to go to the list taker and assessor and submit to their listing of the tax payers property, it feeds the list taker and assessor out of the same spoon, and requires them also to list before another agency.

SEC. 11. This section provides for the compensation of tax collectors, and is a very important section.

According to the records in the office of Register of Deeds, the following compensation was paid on the 1921 taxes.

Maneys Neck	\$ 495.84
Murfreesboro	667.13
Winton	830.21
St. Johns	732.46
Harrellsville	681.06
Ahoskie	1,271.62

TOTAL \$4,678.32

Under the change proposed, on the same amount of taxes collected, the compensation will be as follows:

Maneys Neck	\$ 403.40
Murfreesboro	542.77
Winton	618.43
St. Johns	574.05
Harrellsville	562.14
Ahoskie	804.31

TOTAL \$3,495.10

Total commissions on 1921 taxes \$4,678.32

Total commissions allowed under new act for same amount of taxes collected \$3,495.10

Saving to the county \$1,183.22

SEC. 12. This section provides for the election of tax collectors by the people.

SEC. 13. Fixes the salary of the Sheriff, and restores to him the same salary that he received under the act passed at the extra session of 1920, which will amount to about \$2100. It increases the sheriff's income \$300. There may be some criticism upon this increase, but it must be borne in mind that the purpose of this change is to equalize, as near as possible, the income of the clerk of court, register of deeds, sheriff, and superintendent of public instruction. It must be further borne in mind that with this increase, the sheriff will still receive, in net results, considerably less than either of the other three. The sheriff has an expense account that the others do not have, and in addition has to take his life and his health in his hands and gamble with each.

SEC. 14. This section restricts the board of education in its compensation to the county superintendent and his assistant.

Former Resident Likes The Herald

That Ahsokie and Hertford County natives are looking with keen eyes in the newspapers for news of progress in the section from whence they came, even though they do not reside here now, is perhaps more generally known in the office of the county paper than by any other person or persons. Many subscribers to the HERALD who have moved away from their native county send words of encouragement along with their renewals to this paper. All of these letters indicate their interest in the things back home.

Most generally these letters never get into the newspaper's columns, appreciation of the editor and co-workers being none the less keen, however. Now and then these messages take such form and follow lines of general interest that make them worth publishing. The letter below is one of that kind.

Mr. Cotton, the writer, is a son of Mr. James Cotton of Harrellsville, one of the oldest and most substantial citizens of that section of Hertford. His son is located in Norfolk, Virginia. He writes as follows:

Since subscribing to your weekly paper the Hertford County Herald, I have hoped each week to find a column of Harrellsville news in my copy.

All the towns in that vicinity are mentioned, even to Christian Harbor and Bethlehem, but nothing from Harrellsville before the past week.

Being a former resident of Harrellsville township, I am naturally interested in the people of that community, and would appreciate it if some one would keep your paper posted as to what is going on (gossip barred). Perhaps my good friends Mr. Smith, mayor of Harrellsville, who according to all reports holds more positions than any other one man in the United States, could help us out, for I do not recall anything being mentioned about him being a reporter. But even though you are short on Harrellsville news, you are printing an excellent county paper, and I enjoy reading all of it.

Your paper differs from most small town papers for the city papers, which in my mind is better.

Most people down here take at least one Norfolk paper and no doubt prefer to read local news in the local paper.

Your "Office Cat" is always good reading for me. The article printed in this week's paper in reference to the Ahsokie electric plant furnishing current to the nearby towns, sounds like progress to me.

I cannot understand why a plant large enough to furnish all the nearby towns with current was installed in Ahsokie unless it can be used for that purpose.

The individual electric plants serve their purpose, but can never be operated as cheap and satisfactory to their owners, as buying current from a large central plant. The more current generated and sold the less it will cost the consumer per kilowatt. I am glad that there are men in Ahsokie who will invest their money into an enterprise like this one, and I hope to see electric wires running from Ahsokie all over the county in the near future.

Yours truly,
C. G. COTTON.

FIERY, ITCHY SKIN QUICKLY SOOTHED BY THIS SULPHUR

Mentho-Sulphur, a pleasant cream, will soothe and heal skin that is irritated or broken out with eczema; that is covered with ugly rash or pimples, or is rough or dry. Nothing subdues fiery skin eruptions so quickly, says a noted skin specialist.

The moment this sulphur preparation is applied the itching stops and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching or disfigurement. Mentho-Sulphur always heals eczema right up.

A small jar of Rowles Mentho-Sulphur may be had at any good drug store.
