It was our delightful privilege to have with us for the week-end the Oxford Orphanage Singing Class. The class accompanied by Mr. Alderman and Miss Muse was met at morning train Saturday by the Masons and allotted to the different homes to be entertained. At 8:30 in the evening the class gave a most delightful entertainment in the school auditorium. The program consisted of musical selections, drills and an operatta. The program was well rendered and reflected much credit on Miss Muse who, alone, is responsible for the training and excellent deportment of this class. Again, it was our pleasure to have them remain for Sunday. They rendered three musical numbers at the Baptist Church Sunday morning. The children were delighted by a little outing given them at Colerain Beach in the afternoon. On Monday the Masons took them over to Ahooskie where they gave a concert Monday evening.

What is a mile to gasoline?

IN frontier days a mile was the radius of a family's activities. Then came roads and carriages, pushing the horizon back a few miles. The next generation discovered the possibilities of the internal combustion motor carried on pneumatic tires. The Chinese wall that shut out so many alluring vistas of the land beyond the hill disappeared. Man had conquered distance.

This year 180,000,000 barrels of gasoline will drive trucks, tractors, launches, planes and motor cars. Every drop that is not converted into power is waste—a loss that cannot be recovered. This company, the pioneer in perfecting petroleum products, offers "Standard" Motor Gasoline as the eventual motor fuel—quick, powerful, uniform and complete-burning.
