Acting upon the request of Governor Morrison the State Board of Public Welfare will make a thorough investigation of affairs in the state prison camp and county convict camps. This action is taken after serious charges of mistreatment of prisoners have been made by E. E. Dudding, President of the Prisoners' Relief Society.

A CORRECTION

It was erroneously stated in the account of superior court proceedings published in the HERALD last week that Lee Stephenson was charged with abandonment. In transcribing the court proceedings, Mr. Stephenson's name was confused with the one next to him, and he was credited with abandonment charge. In fact, he received a nominal fine for trespass, and had never been indicted for abandonment. We gladly make this correction.

The Betterment Association held its regular monthly meeting Friday afternoon, 4:00 o'clock. The main feature of the meeting was a live discussion on the possibilities of the school here another year. Our people here have become much discouraged on account of being defeated on the question of issuing bonds. Yet in the face of all this they are still enthusiastic over the school question. We are in need of a better school building and the new school laws have so hampered that we are unable to decide just what steps to take. However, we are going to keep trying until we land a better building than the one we now have. A contest was enjoyed and refreshments, consisting of sandwiches, pickles, hot coffee and candy, was served.

If Back Hurts Begin on Salts

Flush your Kidneys occasionally if you eat too much meat.

No man or woman who eats lots of meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Too much meat may form uric acid, which clogs the filter pores so that they sluggishly filter or strain only part of the waste and poisons from the blood; then you get sick. Rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in urine so it no longer causes irritation, thus often ending bladder disorders. Jad Salts is inexpensive and can not injure; makes a delightful effervescent lithia water drink, which everyone can take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications.
