Earliest Production Of Steel In The United States

The first steel produced in the United States, according to the Geological Survey, Department of the Interior, was probably made in Connecticut in 1728, by Samuel Higley and Joseph Dewey. Crucible steel was first successfully produced in the United States in 1832 at the works of William and John H. Garrard, at Cincinnati, Ohio. Bessemer steel was first made in this country in September, 1864, by William F. Durfee, at an experimental plant at Wyandotte, Mich., and open-hearth steel in 1864 by the New Jersey Steel & Iron Co., at Trenton, N. J.

W. L. CURTIS, Trustee.

This May 22, 1923. 5-25-23-2t.

666 quickly relieves constipation, biliousness, headaches, colds and la-grippe.

Weak Back

Mrs. Mildred Pipkin, of R. F. D. 3, Columbia, Tenn., says: "My experience with Cardui has covered a number of years. Nineteen years ago . . . I got down with weak back. I was run-down and so weak and nervous I had to stay in bed. I read of

CARDUI

The Woman's Tonic

and sent for it. I took only one bottle at that time, and it helped me; seemed to strengthen and build me right up. So that is how I first knew of Cardui. After that, . . . when I began to get weak and 'no account', I sent right for Cardui, and it never failed to help me."

If you are weak and suffering from womanly ailments, Cardui may be just what you need. Take Cardui. It has helped thousands, and ought to help you.

When service counts

More speed for the speedy

"WAY for the United States Mail!" Men have sacrificed and died in order to expedite the country's mail. In fact, the mail has become a symbol not unlike the flag itself; whatever else happens, the mail must go through.

Many people even today scarcely realize the great advance in mail service that has been brought about in the age of gasoline. In the cities, motor trucks whisk the mail from railway to postoffices. In the rural part, even more credit is due to the gasoline engine. And it is in these out-of-the-way places particularly that the Standard Oil Company (New Jersey) has shown its sincerity of purpose by marketing "Standard" Motor Gasoline, making this efficient motor fuel available to all motorists alike.

STANDARD OIL COMPANY (New Jersey)
