We are sorry to report little La-bon Roughton on the sick list this week.

Mrs. Nevins returned to her home last week after visiting Mrs. B. Scull for some time.

Mr. J. O. Aakew, Jr., spent Monday in Winton on business.

Chiropractic, (KI-RO-PRAK-TIC), is a scientific method of adjusting the CAUSE of disease without drugs or instruments, based on a correct knowledge of anatomy, and especially the nervous system.

The Chiropractic idea is that the cause of disease is in the person afflicted, and the adjustment is to correct the wrong that is producing it.

The function of every organ in the body is controlled by the nerve of life or nerve energy which is carried to all parts of the body by the nerves. Any impingement (pinch) of these nerves interfering with the transmission of nerve energy results in an abnormal function called disease.

Nature is the Chiropractic's only aid-adjustments remove the pinch on the nerves and enable nature to do her part in making and keeping the body well.

Ninety-five per cent of diseases are due to pressure upon nerves along the sides of the vertebral column (backbone). This pressure interferes with their functions; hence inflammation, unnatural action, pain and distress are manifested where these nerves end.

All diseases are prolonged until this pressure upon the nerves leading to the affected parts are adjusted. It is the business of the Chiropractor to release this pressure when the adjustment is made.

We will be pleased to give you information regarding the Drugless Health Science of Chiropractic, such that will be of unquestioned value to you.

ATHLETICS\_

Ahoskie last year put out a brand of athletics that was a credit to the town of Ahoskie and still more to the school. This year it looks as if we shall have winning teams also.

Coach Otwell, who has charge of athletics in the school, has had the candidates for the hoys' basketball team out regularly for the last few days, practicing them and getting in shape after the summer's relaxation.

Among the candidates for this ple were visitors in Colerain Sunday. Harry Holloman, letter men of last year and year before last; Robert Hoggard, letter man of last year; Horace Johnson and Linwood Parker, second string men of last year; and, Ray Hoggard, Haywood Phaup, Ev-errette Brinkley, Cling Odem, Henry Clay Odom and Clarke Sinclair, all new men.

Coach Otwell thinks, out of the material that has volunteered for practice, Ahoskie will again put out a winning tea
