AUTO BUSINESS GOOD
 "Hudson Super-Six prices are now at the lowest point in the history of this famous car. And many more Super-Sixes are being made every day than ever before," said Chas. H. Jenkins, local Hudson-Essex dealer. "A volume of Super-Sixes is being manufactured now such as would have been considered impossible a few seasons ago."
 "The Hudson-Super-Six was first brought out in 1915. In the eight years since then numerous refinements have been made in its manufacture, and it is in every way a superior article. We all know of course that costs on material and labor have simply soared."
 "Yet the first Super-Six phaeton was priced at \$1375—which is \$80 more than the list price of the present Hudson speedster at \$1295."
 "This is just another incident that goes to prove that it is volume that makes prices in the automobile world. Every time that Hudson has attained a new height of volume it has been able to afford its owners better values at lowered prices—and also every time it has lowered prices it has made a Super-Six a possibility to a new army of buyers. That is the history of the price movement which has now brought about a Hudson Super-Six listed at less than \$1300."
 "We must not overlook the influence of weather on the automobile business, in forecasting any possible trend of the market. We are having a touch of cool weather much earlier than is usual. That has brought to us an active demand for closed cars."
 "That is particularly gratifying to us, because Hudson-Essex is now

specializing on enclosed cars—the Coaches and the Hudson Sedan—and we are able to deliver promptly to the public the comforts of an enclosed car at the cost of an open one."

**Our new home soon to be opened—
 A Shopper's Paradise!**

SKETCHED above is a picture of Miller & Rhoads' new addition to the Store, now fast nearing completion in Richmond. Workmen are rapidly putting on the finishing touches, and when it is complete—the South's greatest shopping place will be greater and more splendid than ever.

As this fine big building nears completion, it seems like the realization of a dream. A few months ago it was nothing but a great hole in the ground with piles of building material about. To-day, it stands, one of the handsomest business buildings in Richmond, five stories high, and basement, and one entire block long.

The building is surpassing even our own expectations. 'As a place to shop in comfort, it promises you a genuine thrill of pleasure.

Every department in the store will have more room and bigger stocks. There will be new departments, and among them will be one of especial interest to men—a department of Men's Clothing.

There will be everything for your convenience and comfort—rest rooms, where you can stop a moment to refresh yourself; a tea room for delicious food, café and lounge; a place to check parcels, and a place to write letters; a central information bureau where you can buy postage stamps, send telegrams, ask about trains, and interesting places in Richmond to visit, and get almost any other information you may want.

It will be a place for you to stop when you are in Richmond; a place to make your headquarters, rest and refresh yourself and meet your friends, and a place to shop for the best values in nearly everything you need.

The patronage of our friends, not only in Richmond, but throughout the Virginias and Carolinas, has made this splendid new addition possible. Whether you come to visit or to shop, there is always a welcome for you.

A big section on the main floor of the new building will be given over to dress goods and silks with the largest and most brilliant array of materials and patterns we have ever had.

We are planning a wonderful display of women's apparel in the new store. The entire second floor will be devoted to women and children and their clothing needs.

Pause a moment in your shopping and refresh yourself in one of the comfortable new rest rooms. Seat yourself at a convenient writing desk and write that long overdue letter, or just rest in a big lounge arm chair.

The Embroidery Department is a treasure-house of exquisite hand-made fancy work. Odd and unusual pieces that can't be duplicated. You can get the materials here to work yourself, if you prefer. If you don't know how, join our art needlework class.
