

FASHIONS

By Lillian Meriwether

A fashionable afternoon has its beginning at luncheon and its end at dinner time.

In the afternoon costume one can express all one's individuality and charm.

Velvet Gowns The really smart wardrobe contains at least one gown of velvet for afternoon or dinner wear.

There are brocades especially designed to glorify youth; velvet brocade for the evening

A taffeta and lace bouffante frock time frocks can be of satin or crepe with glittering embroideries or weird Persian motifs.

Misses' Afternoon Frocks Dainty shirring, one of the smartest notes for fall, and chic side panels grace a soft afternoon frock of crepe satin.

There is always a vogue for the black and white treatment. One Fifth Avenue house displays black velvet and black satin gowns

For evening the gown of white or light tinted velvet is quite apt to scintillate with paillettes or beads in opalescent shades.

Hats. The woman of fashion well knows that the all-black hat offers an enchanting frame for a lovely face.

For evening, the hat of metal lace and metal thread-embroidered nets and hats of beaded cloths are in favor.

IN MEMORY OF A. B. BURCH On Wednesday, November 7, 1923 the death angel entered the home of A. B. Burch and took to its heavenly home the spirit of a dear father and grandfather.

A GRANDCHILD. Fertilizer manufacturers will offer standard mixtures of material approved by experiment station agronomists this next season.

SEMI-MONTHLY REPORT OF CROP CONDITIONS The recent cold wave has interfered considerably with most farm work and, together with the rains, has interrupted harvesting and planting of fall crops.

Corn is being harvested rapidly and good yields are being secured. Small grain crops are being planted on about the same schedule with the acreage varying around last year's crop area.

Double Christening in Ford Car Family. Detroit, Mich., Nov. 20.—There's been a double christening in the Ford car family.

For several days the folks just couldn't decide what to call the baby of the family until, from quite an unexpected source, there came the happy suggestion.

"Let's call it Tudor." And Tudor it was christened, a name quite in keeping with the aristocratic appearance of the new car.

"How about re-naming the other sedan?" some one asked and then came this reply: "We might call it the four-door or—Ah, that's it! Ford-or, Fordor. Simple and expressive, isn't it?"

So we have two Ford cars with brand new names, the Tudor and the Fordor.
