Women Answer From 12 States

To date, Touring Reporters have visited the principal cities of 12 Southern states; have asked 1297 users their famous question: "Did CARDUI help you?"

Of those 1297 users, 1206 said they were definitely benefited by CARDUI. That's 93 out of every 100. What a record!

CARDUI is a good stimulator for lagging appetites, a real aid to digestion and assimilation. That's why its proper use enables so many women and girls to build up physical resistance, and thus helps them avoid the periodic pain of functional dysmenorrhea due to malnutrition.

WPA SCHOOL LUNCHES, GARDENING AND CANNING

These WPA workers, picking tomatoes, are like hundreds all over the state who have grown and harvested many tons of vegetables for free school lunches in North Carolina.

The produce is hauled from the fields by city or county trucks to nearby canneries where, as above, other WPA workers can, preserve or dry it for winter use.

A scene in a school lunch room. The preserved food goes to 706 schools in 90 counties where it is prepared, with donated foodstuff, by still other WPA workers, and served free to underprivileged children whose parents cannot pay for their noon-time meal. Twenty-two million school lunches have been prepared and served in North Carolina by the WPA during the last four years.
