with bright minds when they stated middle one of them smoked crancities and each one of them recognized the great truth that it takes more seen than a pull to had the choice personness. They recognized the fact that work and lots of its honesty and capability figure most largely in success—so they set about to perform their work well and climbed year by war—to the top of the labour in their respective avocations.

The life story of these two successfull men-starting in the South where all odds were against them get some satisfaction out of—and every young man should remember it when he feels that he is not appreciated. There is room at the top—and as much room beday as these ever was—but it takes efficiency in fill the places. No drone or light weight can hold down a responsible position.
