### LONG SIEGES

The siege of Port Arthur was no Feb 12th as generally believed but from June 1st when the fort was completely isolated by land. There was no escape from the garrison except to jump into the sea.

But the length of the siege was not so great as that of Savastopol hold also by Russians.

The garrison of that town, under the most rigorous conditions, held similar expressions are made so often in connecgland at bay for 327 days-very nearly a year. In 1871 Paris, a city infinitely more difficult of defease, resisted the German army for 132 days; at Plevns in 1877 the Turks infancy to old age Scott's were able to withstand the Russiaus for 24 days; the Confederate troops at Vicksburg stood a siege for 74 days; in the Anglo-Beer war Kim-berly and Ladysmith resisted capture for 123 and 118 days, respectively, while Gibraltar probably holds the record of history with an old time resistance of 874 days.

He did all he could to save them of extra duty or punishment of any kind. He lived on single rations till a preacher was sent to our company. He said he wanted no more than his mon had, but after the preacher came and asked for room and rations, he ordered his double rations, made his bunk wider and shared with him.

Dr W H Moore, a presiding elder in the M E church, is the man, and will give the facts as I am giving them. Before the practice grance our emptain left company prayer every night in the camp and some-times on the march. Is it any wonder that his men were such good sol diers, loved him so much and would light for him as long as they lived. His name is William Allridge. He also attended the coarts where a number of persons were tried for their lives and saved some of them from death.

No wonder Captain Siler has so rolled a much larger number of patronage than we have ever had here: is it any wonder that his patrons and pupils praise him and his work so much, and love him so very fond-ly. JAS, ALLES,
