Published at the Post Office at Asheboro as Second Class Matter.

REMARKS BY MR. BRADSHAW.

The following was prepared by G. S. Bradshaw, Esq., and was read at the meeting of the bar in memory of the late John J. R. Bulla and M. S. Robins.

Mr. Chairman and gentlemen of the Bar:—My acquaintance with Mr. Robins began in 1879. In looking back over the years I have known him, and in recalling the incidents in his career, the flood-gates of memory are opened upon by a rushing stream of personal reminiscences and recollections.

There was Thomas Fuller, a citizen of sturdy virtues and the leading farmer of the lower Uwharrie section, the head of the large Fuller family, and one of the leading men of that day in this country.

Six miles below them on the Uwharrie river was Jonathan Lawler, of gentle memory and lovable character, whose hospitable doors always stood wide open to friend and foe, and who could always get more votes than any other man on a ticket.

Coming up Deep River were Dr. F. Caviness, who was stricken down in the zenith of his vigorous manhood, James A. Cole, the clean, modest man of delicate frame, who was also cut down by the cut fever before he had completed the work of his busy and useful life.

Still following the River up stream, there was Alfred M. Dille, a man of ambition, boundless energy and many virtues, who built and launched Central Falls Mills, against the tide and while it drifted into other hands, there is scarcely a brick in it that was not at one time literally wet with "the sweat of his brow."

Two miles above are the Worthville Mills where Mr. Thomas C. Worth, the brightest man of his years in the county, left the impress of his talents and the record of generous deeds.

Notice to School Committmen. It appears that several who were appointed school committmen at the meeting of the County Board of Education on the first Monday in July, have failed to get the notices mailed them.

A FACT ABOUT THE "BLUES" What is known as the "Blues" is seldom occasioned by actual existing external conditions, but in the great majority of cases by a disordered liver.

speaking only of the dead and only of those with whom I came into personal contact, who are associated in my recollections with the deceased, and who have passed away since '79.

In this list and standing at the head is the name of Braxton Craven, whose work is no small part of the history of this country, and whose name and name are safe and need no eulogy in this presence.

From 1870 and 1890, and even longer, Mr. Robins' position was unique one. It may be said that every citizen of the county who needed a lawyer during those years was his client.

With you, gentlemen, and with the good people of this county, the best people on earth, if my word is true I assume it a duty to join in the payment of this tribute of respect to the memory of your most distinguished citizen.

The Greeks believed that the length of a woman's head should be one-eighth her total height. American women's heads average longer in proportion.

TUTT'S PILLS They control and regulate the LIVER. They bring hope and buoyancy to the mind. They bring health and elasticity to the body.

Truths that Strike Home

Your grocer is honest and—if he cares to do so—can tell you that he knows very little about the bulk coffee he sells you.
